Introduction

In 1964, Congress passed the Economic Opportunity Act to begin America's War on Poverty. This act created a special funding stream for communities to address poverty on the local level. Community Actions developed across the nation to support low-income individuals in improving the quality of their lives. The Community Action Commission of Fayette County was incorporated in 1967. The funds from the federal government go to the Ohio Development Service's Agency Office of Community Assistance and is then granted to the Community Action Commission of Fayette County (CACFC).

Today, the CACFC manages close to 7.5 million in federal, state, local, and private funds. The agency is home to over 100 employees and over 25 different programs. CACFC primarily serves Fayette County, Ohio. However, the agency has roots in Clinton, Highland, Ross, Greene, Madison, and Pickaway Counties as well. These programs include:

- Early Childhood Programs
 - Head Start
 - Early Head Start
- Emergency and Utility Programs
 - Home Energy Assistance Program – Summer Crisis
 - Home Energy Assistance Program – Winter Crisis
 - PIPP Plus – Utility Assistance Program
 - Salvation Army - Emergency payments for medical, housing, utility, and other needs
- Homeless Programs
 - Emergency Shelter
 - Transitional Housing
 - Permanent Supportive Housing
 - Destination HOME
 - Fayette Inn
 - Fayette Landing
 - Homeless Crisis Response Program – Rapid Re-housing
- Housing Counseling & Home Ownership
 - Self Help Housing
- Senior Programs
 - Healthy U
 - Caregiver Program
 - Homemaker Aide
 - Matter of Balance
- Social Service Coordination
- Transportation
 - Public Transportation
 - Contracted Transportation – Medicaid, Veterans, and local employers
 - Mobility Management
- Weatherization Program
- Youth Programs
 - Summer Youth
 - YouthBuild
 - Prevention Coalition

Every three years, all Community Action Agencies must conduct a community needs assessment to inform the strategies of its strategic plan. This needs assessment describes community needs, service delivery strategies based on those needs, and directions for building the capacity of the agency and community to meet local needs. This needs assessment's focus is on Fayette County, Ohio and will span calendar years of 2018, 2019, and 2020.

The Community Needs Assessment (CNA) must meet the following standards:

- 1.1 - Low income individuals participate in the CNA.
- 1.2 - The organization analyzes information collected directly from low-income individuals as a part of the community needs assessment.
- 1.3 - The organization has a systematic approach for collecting, analyzing, and reporting customer satisfaction data to the governing board.
- 3.1 - Conduct an assessment and issue a report within the past three years.
- 3.2 - Collection of data specific to poverty and its prevalence related to gender, age, and race/ethnicity for the service area.
- 3.3 - Include both quantitative and qualitative data.
- 3.4 - Include key findings on the causes and conditions of poverty in the community.
- 3.5 - Have the CNA approved by the Board of Directors.

Enclosed in this community needs assessment you will find that the CACFC met these standards as evidenced by:

- 1.1 – Low income individuals participated in focus groups, completed community needs assessment and customer satisfaction surveys.
- 1.2 – An analysis is included in the CNA in the Community Profile and Analysis sections.
- 1.3 – The agency's process for reporting customer satisfaction can be found in the Customer Satisfaction process section of this assessment.
- 3.1 – This report was completed on October 4, 2017 and submitted to the board for review, as evidenced by the backup documents in the appendices. Approval was obtained on October 11, 2017.
- 3.2 – Please see the needs assessment data available in the appendices and the [Poverty Specific Profile](#).
- 3.3 - Both focus groups and surveys were utilized. See
- 3.4 – See the Causes and Conditions of Poverty section.
- 3.5 – See the signed board approval in the appendices.

Mission, Vision, and Approach

Mission Statement

The mission of the Community Action Commission of Fayette County is to combat causes of poverty, expand community services, and implement projects necessary to provide services and further community improvements.

Its mission is also to consider the problems concerning youth, adults and senior citizens and deal with the prevention and solving of those problems.

The provision of affordable housing is a specific purpose of the agency, as is the development of income-generating projects consistent with the purposes of the corporation which will increase funds available for services and reduce the agency's dependence on public funds.

Vision Statement

Our vision is to facilitate the development of effective community programs that provide every individual and neighborhood in our community the opportunity to thrive.

Approach

- Offering support services and providing basic needs to which all people have a right.

- Developing opportunities for people with low incomes. Increasing public awareness about the challenges that many people with low incomes face.
- Ensuring that people with low incomes provide the leadership in the decisions that affect their lives.
- Engaging many voices in promoting human rights and economic justice.
- Advocating for policies that help and taking a stand against policies that hurt those living with low incomes.

Assessment & Planning Process

This Community Needs Assessment (CNA) was developed utilizing the tools discussed in this section below and included in the appendices of this CNA.

- Compilation of data specific to poverty and its prevalence related to gender, age, and race/ethnicity for the service area obtained from Community Commons on 7/17/2017 at www.communitycommons.com.
- Customer Satisfaction Surveys created on 6/7/17 and available at <https://www.surveymonkey.com/r/CACFCCS>. These surveys were created by the agency's Planner and distributed by the agency's frontline staff.
- Community Needs Assessment Survey created on 7/7/17 and available at <https://www.surveymonkey.com/r/cacna>. This survey was developed through research of the agency's planner and posted on the agencies website, on Facebook and featured in the local paper.
- 5 focus groups with 50 low-income individuals during Getting Ahead from January through June 2017. These focus groups were chaired by the following staff and consultants: Mellinda Hellard, Jennifer Guisinger, Tracey Hixon, Stacey Johnson, and Vickey Leisure.
- Data pulled from the Homeless Management Information System and the OCEAN Database regarding agency activities.

Discussion of Low Income Involvement

The CACFC engaged low income individuals in the following ways to participate in the needs assessment:

- Conducted focus groups through the Getting Ahead Program from 1/1/17-6/30/17. Their feedback is discussed in the analysis section. 50 low income individuals participated in the focus groups.
- Conducted outreach to program participants to fill out Customer Satisfaction Surveys and the Needs Assessment Survey face to face at time of service, online (both Facebook and the CACFC website), and in the local paper.
- 37 Customer Satisfaction Surveys were submitted and 46 Needs Assessment Surveys were completed by low income individuals.

Community Profile

The Community Action Commission of Fayette County (CACFC) is the designated Community Action Agency for Fayette County, Ohio. In total, the service area includes the cities of Bloomingburg, Jeffersonville, Milledgeville, Octa, New Holland, and the county seat, Washington Court House. With an area of 406.36 square miles and a population density of 70.8 per square mile, Fayette County is less dense than the state and national average. Population in Fayette County has actually been on the decline for some time as many individuals leave the community for increased economic opportunity. The largest segments of its population are between 5-17 and over 65.

Compared to the rest of the state and nation, CACFC's service area has relatively low levels of racial and ethnic diversity. The vast majority (95%) of the population identifies as white. Fayette County's disabled population is 16.37%, greater than both the nation and state. Individuals that report as multi-racial or black were also identified as disabled at greater rates than whites, with 24.4 and 23.2. Most notably, almost half of Native American/Alaska Natives were disabled. Only 1.6% of the population has limited English proficiency. 38.21% of that population identifies as Hispanic.

Within the report area 2,854 public school students or 58.89% are eligible for Free/Reduced Price lunch out of 4,846 total students enrolled. 16% of the total population is identified as experiencing food insecurity at some point during the year. 24% of children were identified as food insecure. 22% of these food insecure children are not eligible for any

assistance. There are free meals available in the community every day of the week and six faith-based organizations running food pantries.

Fayette County is home to two public school districts and the Fayette Christian private schools. 91.8% of all students in the 2014-2015 school year received their diploma. While WCH City Schools shows a grade of A for improvement and B for graduation, all other performance rankings are a D or lower. Miami Trace shows a grade of B for improvement and A for graduation, but all other performance indicators are graded as a C or lower. This is relevant because research suggests that education is one of the strongest indicators of health.

Transportation is a challenge for many low income families in Fayette County. While only 6.64% of all household's report having no motor vehicle, the local transit system is often overwhelmed. Fayette County Transportation provided over 39,500 trips in 2016 alone. The vast majority of these trips were for employment (almost 26,000) with medical following with medical following (around 7,000).

The housing market in Fayette County is very challenging. 33% of all households pay more than 30% of their income towards their housing. The housing stock, as projected by the census, is around 12,680 units. Approximately 60% of those units are owner occupied. Focus groups with low-income individuals indicated that rental housing that will pass inspection is difficult to find and that many individuals have had to move outside of their school district or the county at times when unable to locate affordable, quality housing. This is supported by the fact that the county has 32% of its housing units being occupied with one or more substandard conditions.

Ohio Development Service Agency's county profile indicates that 8.5% of the county's housing units are vacant. 64% of the housing stock was built before the 1980's. The greatest percentage of homes are valued between \$60-79,999.

Fayette County does fair better than the state and nation in terms of access to HUD-Assisted units with 674 units in the county. 368 are HCV, 248 are Project-Based, and 58 are HUD 202. The county is also home to 587 Low Income Housing Tax Credit units.

The median household income in the community is \$49,222, well below the state and national median incomes of \$62,817 and \$66,011 respectively. Married couples, singles, and single fathers far out earn single females with children. Single father's median income is \$31,071 and single mother's median income is \$18,761. While no data is available for most minority groups, Asian's median income is shown to be \$90,089, followed by white at \$50,260, multi-racial at \$41,563. Individuals reporting as Hispanic/Latino make the lowest median income of \$24,853. Overall, Fayette County reports 5-7,000 less in per capita income that the state and nation.

Fayette County has a higher usage rate for public supports than the state and nation. 4% of residents receive OWF/General Assistance. 515 households receive about \$2,209 in public assistance. 28% receive Medicaid. These individuals are more frequently under 18 and over 65, comprising 58% of the Medicaid population.

The county is both a mental health professional shortage area and a medically underserved community. Currently, Fayette County has two substance abuse treatment providers, Fayette Recovery and Scioto Paint Valley Mental Health. There is a total of 14 mental and 11 primary healthcare providers in the entire county. A total of 12% of the entire population is uninsured. However, this issue impacts blacks being disproportionately uninsured at 32%.

The area also has more families on SNAP than the state and national averages, with 19% of the population receiving SNAP. These benefits are also disproportionately depended upon by black (26%), other racial (75%), and multi-racial (34%) families. The county has 31 Authorized SNAP retailers, allowing higher access than the state and national average.

In terms of education, the community also lags the state and nation in terms of individuals with a high school diploma, associate's degree, or bachelor's degree. This is likely due to a large portion of the community leaving for college and frequently not returning or moving for economic opportunity. 15% of the population has no high school diploma, 22% has an associate's or higher, and 14% reports having a bachelor's degree or higher. 42% of the Hispanic population does not have a high school diploma.

Poverty in the community also follows these trends. 28% of the county’s children are 100% under the Federal Poverty Level. 80% of the county’s Hispanic children are in poverty tract. Then 56% of the county’s children are 200% under FPL. As a percentage of the total population, 18% of all residents are under 100% FPL and 42% are under 200% FPL. Again, Hispanics are over represented with over 50% reporting at 100% FPL.

The current unemployment rate for the county is 3.9%. Over the course of May 2016-May 2017 rates ranged from as low at 3.4% to 5.4%. The county’s rate is slightly less than the United States.

Due to many health-related factors and access to care, the county ranks 76 out 81 in terms of health outcomes. Most notable are its teen pregnancy rates (49) and obesity rates (33%) being greater than other Ohio Counties, according to the County Health Rankings produced by the Robert Wood Johnson Foundation. The county also has a preventable ambulatory care sensitive condition discharge rate a full 21 points over the state and 22.7 points over the state and national averages at 72.6. The county also has a high tobacco consumption rate of 31%, a full 10-12% over the state and national average.

The community has been overrun by the opiate epidemic. Recent data shows Fayette County being in the top 2/3 of Ohio’s counties in terms of impact of the opiate problem. The age adjusted death rate is 22.2 versus the state average of 19.6 and national average of 13.4. Past 30-day use data obtained of surveys of the two local school districts showed 23% of 10th graders reporting alcohol use, 13% reporting marijuana use, and 5% reporting the illegal use of prescription drugs.

Poverty Specific Profile

Below is an excerpt on poverty from the full Community Needs Assessment accessed from Community Commons on 7/17/17.

Poverty - Population Below 100% FPL

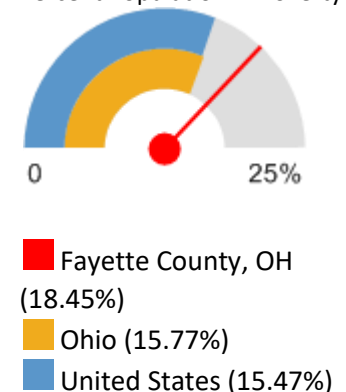

Poverty is considered a *key driver* of health status.

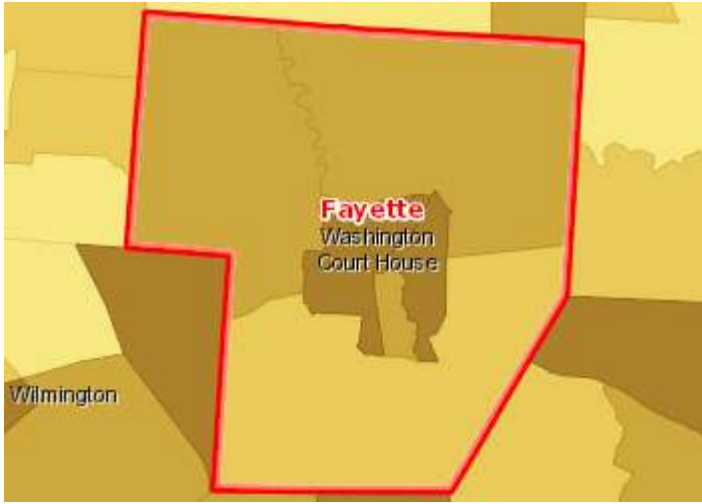

Within the report area 18.45% or 5,185 individuals are living in households with income below the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

Report Area	Total Population	Population in Poverty	Percent Population in Poverty
Fayette County, OH	28,105	5,185	18.45%

Insurance - Population Receiving Medicaid

This indicator reports the percentage of the population with insurance enrolled in Medicaid (or other means-tested public health insurance). This indicator is relevant because it assesses vulnerable populations which are more likely to

have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Insurance - Uninsured Adults

The lack of health insurance is considered a *key driver* of health status.

This indicator reports the percentage of adults age 18 to 64 without health insurance coverage. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

Lack of Social or Emotional Support

This indicator reports the percentage of adults aged 18 and older who self-report that they receive insufficient social and emotional support all or most of the time. This indicator is relevant because social and emotional support is critical for navigating the challenges of daily life as well as for good mental health. Social and emotional support is also linked to educational achievement and economic stability.

Report Area	Total Population Age 18	Estimated Population Without Adequate Social / Emotional Support	Crude Percentage	Age-Adjusted Percentage

Population Receiving SNAP Benefits (ACS)

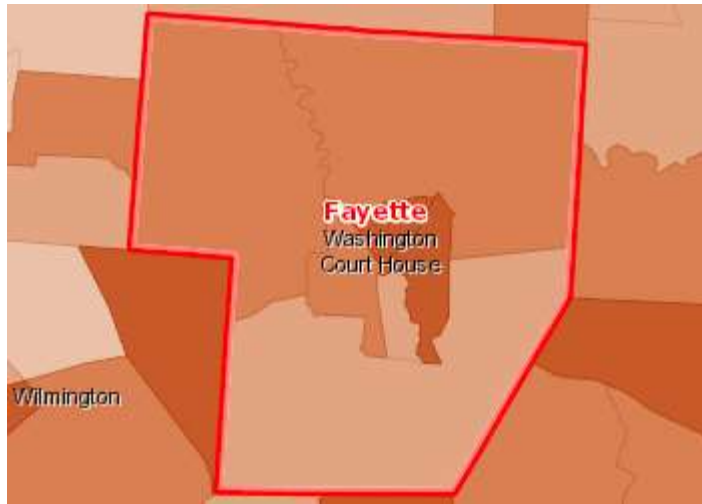

This indicator reports the estimated percentage of households receiving the Supplemental Nutrition Assistance Program (SNAP) benefits. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrolment.

Population Receiving SNAP Benefits (SAIPE)

This indicator reports the average percentage of the population receiving the Supplemental Nutrition Assistance Program (SNAP) benefits between the months of July 2012 and July 2013. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Probability of a child raised in the bottom fifth staying in the bottom fifth, 1980-2012	51.3%
Percentage of students on reduced/free lunch	54.4%
Percentage of population enrolled in Medicaid	34.2%
Percentage of households receiving HEAP benefits	16.9%
Percentage of renters cost-burdened	46.5%
Percentage of home owners cost-burdened	23.3%

According to the American Community Survey Estimates from 2011-2015, the highest incidences of poverty exists in in the following categories:

Subject	Percent below poverty level
Female householder with no husband present, children under 5	70%
Female householder with no husband present, children under 5	70.9%
Race	
American Indian (all families)	100%
African American female householder with no husband present	58.3%
Some other race alone (all families)	45.3%
Female householder with no husband present, some other race alone	100%
Female householder with no husband present, 65+, public assistance (SSI, etc.)	54.4%
Female householder with no husband present, no high school diploma	90.3%
Female householder with no husband present, high school graduate	45.3%
Female householder with no husband present, no worker in the family	76.9%
Female householder with no husband present, renter occupied	51.8%

Conditions & Causes of Poverty in Fayette County

Many Fayette County families do not have enough household income to meet their basic needs. As a result, they are also unable to afford quality and/or safe housing, access reliable transportation, and pay for their most basic health care needs. Additionally, once individuals in poverty reach a minimal increase in income, they experience the benefits cliff. Many low income individuals indicated this as a major reason for their continued poverty.

Employment:

Low income households and members of the CAC Board of Directors indicated that employment is one of the largest causes of poverty in the community. The problem is two-fold.

The CACFC conducted a focus group with local employers in late 2016 regarding their largest problems. Local employers indicated that the community lacks a workforce. Many of their higher paid positions remain unfilled. Local employers indicated that most individuals do not show up for drug screens. They frequently recruit outside of the area. Local employers also pointed to the lack of affordable, reliable transportation.

Focus groups with low income individuals resulted in very different perceptions. Low income households indicated that many jobs they were able to perform were low paying and could not replace the benefits they would stand to lose. They also pointed to transportation issues being a barrier to maintaining employment. They also indicated that many local employers use of temporary agencies made it difficult to find permanent positions they could rely upon to pay their bills.

Affordable Housing Stock

Fayette County's renters are extremely housing burdened. 68% of the county's housing stock was build prior to 1970. 1,079 units are sitting vacant. Only 710 units are available for rent under \$500/month. Both in focus groups and the Community Needs Assessment Survey, affordable housing was rated as the top reason for poverty in the community and something the agency should address to move individuals out of poverty.

Substance Abuse

The 2017 Fayette County Community Health Assessment identified substance abuse as the top public health concern. Like many other counties in Ohio and across the county, Fayette County has been overrun by the opioid epidemic. The Ohio Mental Health & Addiction Services Administration categorized the county as being a tier 2 community based upon its overdose data from 2010-2015. Tier 2 communities comprise the top half of all counties ranked for overdose death. Fayette County is ranked 11th for its average age-adjusted unintentional drug overdose death rate per 100,000 population from 2010-2015 with this data source. The Ohio Department of Health shows that with a rate of 28.1, the Fayette County death rate is 1.5 times the state average.

Ohio is 4th in the nation in overdose deaths, according to the Center for Disease Control and Prevention. During the coalition's 2016 needs assessment, there were 2,753 individuals in treatment and 111 patients receiving naloxone from EMS personnel in 2015. In 2016, the local hospital reported over 200 overdose cases at the emergency room and 202 doses of naloxone were administered to 139 patients by EMS services, for a total of 402 overdoses.

The Fayette County jail was constructed in the 1800s and was only made to house 24 inmates at a time. Since the epidemic, the jail is often over capacity, with over 70 individuals in the jail. The county recently purchased a scanner for inmates and visitors, as two individuals have died from overdoses in the jail within the past year. The Sheriff's Office conducted a survey in the summer of 2016 and found that 95% of inmates identified opiates as being their drug of choice which directly resulted in their incarceration. Needs assessment data shows that 349 cases were related to substance misuse in 2015. Job and Family Services reports that 68% of their cases are related to substance use.

A lack of access to care presents barriers to good health, but can be deadly when it comes to substance abuse. The supply and accessibility of facilities and physicians, the rate of uninsurance, financial hardship, transportation barriers, cultural competency, and coverage limitations affect access to treatment.

According to the Community Commons Health Indicator report accessed on July 17, 2017, Fayette County has the following barriers to community health:

www.communitycommons.org

Indicator	Fayette County	Ohio	United States
Mental Health Care Provider Rate	48.6	154.8	202.8
Primary Care Physicians Rate	38.19	93.1	87.8
Percentage of Adults w/o Primary Care	39.11%	18.65%	22.07%
Preventable Hospital Events Discharge Rate	72.6	51.5	49.9
Years of Potential Life Lost	9,358	7,562	6,588
Age Adjusted Overdose Death Rate	22.2	19.6	13.4

Race

Community needs assessment data also supports a race disparity in the community. Individuals reporting as Black/African American, American Indian, Hispanic, or other race experience poverty and its associated impacts at greater rates than their white counterparts.

Female Head of Households

As noted in the poverty profile section above, female headed households are also disproportionately impacted by poverty. The more children in the household, the greater the rates of poverty.

Community Needs Assessment Survey Analysis

The Community Needs Assessment Survey was analyzed to distinguish between consumers and low income input and all community stakeholders. The top ten priorities for each group is listed below and further analyzed in this section.

Community's top 10 Critical Needs

Priority	Low Income	All Stakeholders	Overlapping Priorities
1	Affordable Housing	Substance Abuse	Affordable Housing
2	Prescription Assistance	Substance Abuse Prevention	Substance Abuse
3	Substance Abuse	Affordable Housing	Domestic Violence
4	Domestic Violence	Domestic Violence	Temporary Shelter
5	Temporary Shelter	Legal Services	Rent Assistance
6	Enrichment Programs for Youth	Emergency Medical Care	Emergency Medical Care
7	Rent Assistance	Temporary Shelter	Substance Abuse Prevention
8	Emergency Medical Care	Rent Assistance	Transportation
9	Substance Abuse Prevention	Transportation	
10	Transportation	Counseling Services	

Focus groups with low income individuals also had similar themes. These themes included: affordable housing, shelter, substance abuse and prevention services, and the expansion of transportation services available.

Affordable Housing – Across stakeholder groups, affordable housing continues to be a high priority for the agency.

Prescription Assistance – Low income individuals still identified the need for prescription assistance. As such, the agency will continue to search for more sources for the Salvation Army program.

Substance Abuse – The substance abuse issue in the community is impacting multiple programs. The increase in individuals impacted by opioid misuse disorder has resulted in increased law enforcement, court, jailing, and treatment costs. EMS personnel and hospital staff are inundated with individuals overdosing. Low income and other stakeholder groups alike have identified this critical need in our community. Low income individuals recognize that treatment

options are scarce for individuals on Medicaid and facilities have long waiting lists. The agency is working on the Faith in Recovery Coalition to increase treatment options in the community.

Domestic Violence – The local domestic violence shelter recently closed, resulting in a lack of services and housing for victims of domestic violence. The agency will look into VOCA, VAWA, and OCJS funding to fill this gap.

Temporary Shelter – The local shelter’s configuration does not lend itself to serving single, homeless men. The state and federal government’s priorities are to not open more shelters. While Housing First (placing individuals into housing rather than in shelter) is a wonderful idea, lacking a men’s shelter results in individuals continuing to sleep on the streets until housing can be found. Individuals are often reluctant to cross county lines for shelter due to their connection to the community and transportation issues. The agency will continue to pursue partnerships and will begin researching other sites that meet the agency’s current budget.

Enrichment Programs for Youth – The community is interested in increasing protective factors and decreasing risk factors for local youth. The agency is currently working on substance abuse prevention youth-led coalitions that will be expanded over the next year to include alternate activities for youth.

Rent Assistance – Along with affordable housing and the prioritization of HUD to serve literally homeless individuals, few resources exist for rent assistance in the community. The agency will continue to seek out partnerships with the local MHA to find new funds to serve this need.

Emergency Medical Care – Many low income families and other stakeholders recognize that the area is often underrepresented with primary and other emergency care. The agency will be joining the Rural Health Association to look at opportunities to solve this critical need.

Substance Abuse Prevention – At the time of the formulation of this document, the agency received the Drug Free Communities Support Program to expand substance abuse prevention activities in the community.

Transportation – The agency’s transit program struggles to keep up with the demand for its services. The agency is exploring alternatives like point deviated routes, additional contracts with local employers, and the development of a volunteer driver programs to meet the needs of individuals whose circumstances do not have a funding source.

Customer Satisfaction Approach

Collection – Customer Satisfaction Surveys are distributed by front-line staff at the time of service. The CACFC has a customer service feedback box for program participants to submit their surveys anonymously. The survey is also available online on the Community Action website and is distributed on the agency’s Facebook page. The Community Needs Assessment also includes a section on rating your experience with each type of program CACFC operates.

Analysis – The agency’s receptionist enters survey data into Survey Monkey. The agency Planner analyzes the feedback annually and reports to the Board. Survey Monkey has the ability to filter by program type. The Planner did filter the data to identify if program participants had more positive or negative feedback based upon the programs they were using. However, what the Planner found was that the majority of customers were visiting and reported on multiple services. During the annual survey update, the Planner will work to create different surveys and/or lines of questioning specific to each program for more individualized feedback. To analyze customer feedback on the Community Needs Assessment Survey, the Planner filtered the results by low-income participants/consumers only.

Reporting Data to the Board – The agency’s Planner will distribute the PDF of the Survey Monkey Customer Feedback results to the Board of Directors on an annual basis. As the surveys are improved and customers submit more feedback, Program Managers may be better able to make adjustments to their programs based upon those results.

The reports from the CNA and Satisfaction Survey are in the Appendices of this document.

Customer Satisfaction Analysis

For the most part, customer satisfaction reported on the Customer Satisfaction Surveys was overwhelmingly positive. Customers reported fast, respectful, knowledgeable service being provided across program types. Only two respondents indicated that they “did not know” if they would recommend Community Action to others. Only one respondent indicated that the CAC employee needed more knowledge of community resources.

In the Community Needs Assessment Survey, all “don’t know answers” where the individual responding was not familiar with the program was excluded from analysis. The percentages of responses are tabulated below:

Program	Respondents	Rated Poor	Rated Fair	Rates Good/Excellent
Utility Assistance	35	11.43%	5.71%	82.86%
Early Childhood	20	0%	30%	70%
Youth Programs	17	11.76%	23.53%	64.71%
Salvation Army	14	7.14%	28.57%	64.29%
Home Ownership	16	18.75%	18.75%	62.5%
Homeless	26	23.08%	15.38%	61.54%
Mobility Mgmt.	10	20%	30%	50%
Transportation	19	26.32%	36.84%	36.84%
Senior Programs	12	16.67%	58.33%	25%

The three programs with the most negative feedback included transit, mobility management, and homeless programs. Focus group participants indicated that the following issues were present in those programs:

Transit and Mobility Management: The need for a free transit, shuttle service in town, more transit to employment, and more on-time trips. Mobility Management low-income participants expressed frustration at the lack of out of county transportation available to non-Medicaid eligible populations under the age of 60.

Needs Assessment Recommendations for this issue: The transit program is piloting a point deviated route service and the Mobility Manager is researching the feasibility of a volunteer driver program to expand out of county services. The Mobility Management funding source restricts the Mobility Manager’s ability to do fundraising. As such, grants will be submitted to foundations to find alternative revenue sources for this need.

Homeless Programs: Focus group participants shared their frustration in the lack of emergency shelter beds in the community, specifically those available to single men.

Needs Assessment Recommendations for this issue: The state of Ohio continues to not fund new shelters in the Ohio and encourages cross county collaboration for gaps in homeless services and the use of rapid re-housing funds to place homeless individuals directly into housing. As such, the agency must continue to look for alternate sites for the county’s homeless shelter that are affordable utilizing the \$87,500 the shelter receives each year to fund 24 hour staffing and operating funds. NIMBY issues continue to be a challenge as well as properties suitable for congregate living that would provide separate living spaces for single men and households with children. Alternate sites will continue to be sought out to fill this need.

Appendices

Focus Groups Recommendations

Group 1

Recommendations from GA session #1

1. Youth

Investigators reported that they would like to see a facility, youth oriented. Something for the younger individuals in our community. Like the Warehouse.

They expressed the need for a movie theater.

WCH Pool and/or small water park.

2. Transportation

The group expressed their concern about our current transportation services and the need for improvement, such as pick-ups, being on time, one route to Wal-Mart and back through town.

They recommended specific shuttle services to work sites/Industrial Park and to out of county jobs as well, ie; Mt. Sterling, Wilmington, for all shifts. Bus passes for low income and individuals who are just starting a new position and have no money to ride the bus.

3. Child Care

Recommendations from the group specified needing day care sites at local factories. They expressed the desire to be able to take their child to work with them and to have an on-site day care. The individuals working would not have to leave the premises to address any needs or concerns with their child.

Additional affordable day care. Parents are not pleased with the State providers.

4. Housing

Additional affordable housing.

Men's shelter

Additional beds/rooms at our current local shelter. Families have reported not wanting to go to a shelter out of county due to their children being enrolled in school in WCH/Trace and/or the individual just received employment and is unable to get back and forth if they went out of county.

5. Predatory Lending

GA participants were angered by these lending places. They expressed the need to make the public aware of the fine print and/or no print, for the lending obligations.

6. Recovery Housing

Participants felt that individuals who are released from jail or rehab need a safe place to return to. The group discussed the high risk of repeating the addiction behavior and/or the crimes associated with the behavior, if returned back to the same environment.

7. Boards

The GA graduates expressed the need for more community residents to be a part of community board meetings. They suggested having "local boards" invite the general public and encourage them to express their opinions and suggestions and for the boards to "listen" to what the public has to say.

Group 2

RECOMMENDATIONS FOR A MORE EQUITABLE AND HEALTHY FAYETTE COUNTY

The following items were determined as a result of a "Getting Ahead" (GA) group of investigators. This GA group is one of several being facilitated in Fayette County. It is being funded by the Healthier Buckeye Grant, managed by the Fayette County Community Action Commission.

Most GA members have, at some time in their lives, been in need of more resources to stabilize their lives. The objective of all GA members is to facilitate for themselves and the local community opportunities to move from getting by to getting ahead.

1. Transportation

- Compared to nearby communities, Fayette County falters in providing low-cost reliable transportation.
- Local temporary placement agencies report that lack of reliable transportation is the number one reason new hires are released.
- Recommendations include a shuttle service with specific pick-up times throughout the county and city, timely runs to and from the mall, and runs to various work sites such as the Industrial Park.
- A Mt. Sterling organization rep states he could hire fifty WCH residents if a shuttle could be provided.

2. Housing

- GA Investigators report a wait-time of over a year for safe and affordable housing is not uncommon.
- GA Investigators have been forced to remove their entire family, including school-age children, to a nearby community to obtain quick and safe shelter.
- Officials need to seek immediate and long-term solutions to providing affordable housing opportunities and more beds in local shelters.

3. Predatory Lending

- GA Investigators researched this issue and found interest and fees can exceed 200 percent!
- All efforts should be made to encourage a credit union to establish in our area.

4. Drug Court

- Drug Offenses occurring years ago continue to present a barrier to stability.
- A Drug Court should be immediately established in Fayette County with an emphasis on preparing an exit plan for offenders to rehabilitate and remove themselves from the jail cycle.

5. Criminality

- Criminal Offenders may experience great difficulty stabilizing their lives, as records shadow them for decades.
- Persuasions should be made to move to a point system, such as in driving issues, allowing for points to fall off as the years progress.

6. Pest Free

- Many care to rid themselves and their homes of pests such as fleas, lice and bedbugs, however; they cannot afford the treatments or products.
- Grants should be pursued to procure products for pest elimination. These should be free and perhaps dispensed by the local health department.

7. Recreation

- Kudos to the city for sponsoring the Scarecrow Festival! A job well done!
- The outdoor pool needs to be reestablished and offered at low cost.
- More playgrounds not connected to schools should be built.
- Adult supervision of free activities at area parks should be provided over summer breaks.
- Any free entertainment options are welcomed.

8. Benefits and Resources

- Assistance is cut as soon as one improves his or her life.
- Benefits should continue for a period of months allowing citizens to fully stabilize and be able to remain stabilized.

9. Communications

- Superb programs that could help one get ahead often go unnoticed.
- A common posting of all free and helpful opportunities should be placed in a specific

section of the Shoppers' Guide to generate participation and assist residents .

Group 3

Transportation

1. GA Graduates expressed concern about current transportation and not having the \$1.00 to ride round trip. They live with no income and some of them living on the out-skirts of the county, makes it too far to walk and/or ride a bike.

Medicaid

1. Graduates expressed concern about losing their current Medicaid and how they would receive medical treatment for current conditions, if they lose their benefits.

Local Boards

1. Graduates recommended that local boards welcome and/or invite the general public, low income individuals and homeless. Also, recommended that they “be asked” for their feedback on topics being discussed because they feel intimidated by the community leaders and will not speak up. They felt “left out” even when they were at the table. They also expressed concern for their voices not being heard, if they did speak out.

Men’s Shelter

1. The group consisted of mostly men, so their concern for our community to have a men’s shelter was a hot topic. Mostly concerned about not having one and the disadvantages of having to go out of town to get off the streets, when they want to stay in WCH.

Group 4

GA Investigators discussed the importance of all resources that are currently in Fayette County. They also discussed the need for additional resources to help all community members be able to rise above poverty.

The most significant need they came up with was more affordable housing. A competitiveness is absent when dealing with the local landlords and they keep inflating the rent prices. The investigators researched Fair housing laws and tenant rights and responsibilities to learn more about 2017 housing standards.

Other recommendations were discussed as well and included the following:

- Childcare
- Transportation
- “Buy Here, Pay Here” car dealerships
- Predatory Lending
- Youth (activities, drug prevention, Big Brother, Big Sister programs)
- More local activities (movie theater, drive in movies, pool, Go Kart racetrack)
- Birthing unit at FCMH
- Streets and sidewalks maintained better.

- Different support groups
- Neighborhood watches
- Recovery Housing

Group 5

2017 YouthBuild/Getting Ahead Recommendations

Top Priority:

Efficient and affordable transportation to and from work sites, as well as other stops such as local colleges and service agencies.

Top Five Priorities for Community Improvement:

1. Reinstall a theatre and possibly a drive-in movie site.
2. Update all parks (more bike and walking paths, additional equipment for small children, a natural habitat area with duck pond, a swimming pool with low entrance fees, a petting zoo, and more fountains and toilets).
3. Support a full-service, quality hospital (including a birthing unit), and establish a committee to receive and publish complaints.
4. A cultural arts area (interactive spaces, music, art, paintball/laser tag).
5. Affordable and available housing of all types (bank-owned opened to be a rental, additional homeless shelter beds, veteran rooms, other).

Additional items that would improve Fayette County:

1. Free community college courses.
2. Additional affordable daycare.
3. Repairs to streets and sidewalks.

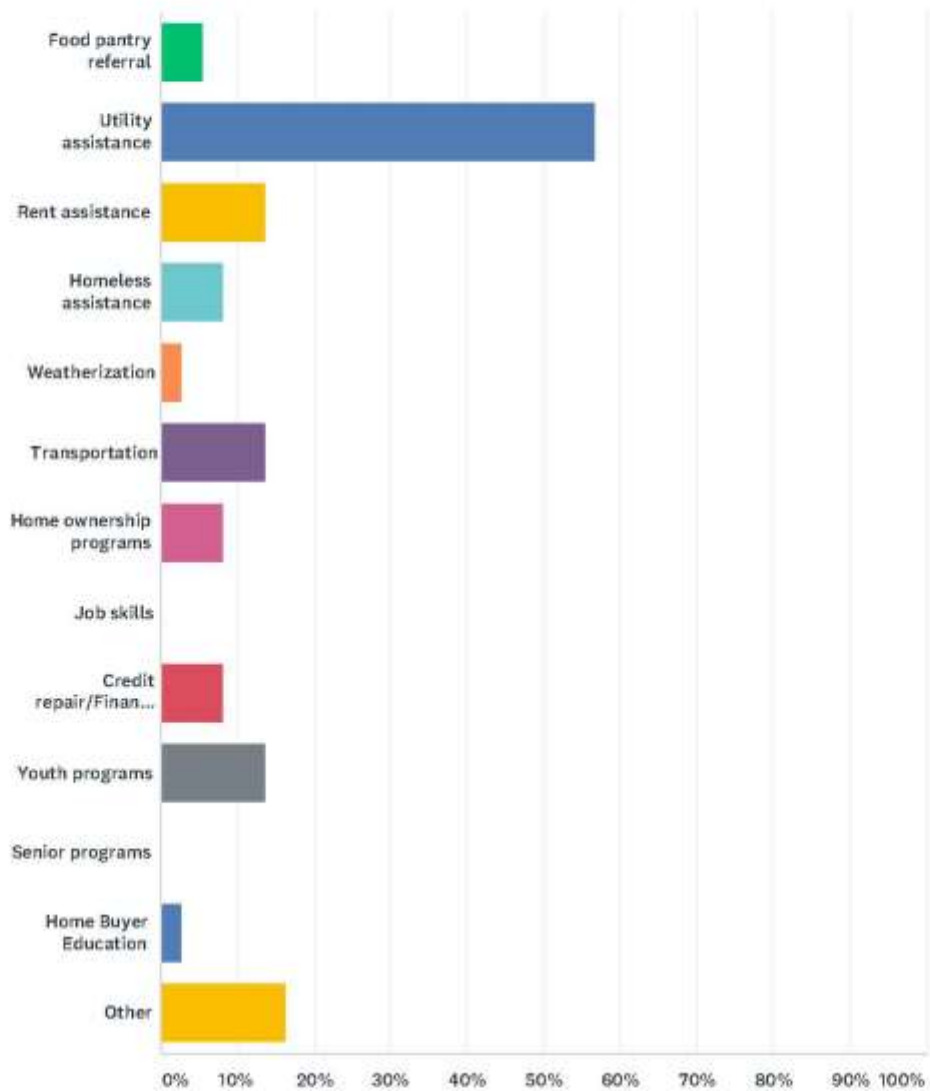

Other Items Deemed Needed in Fayette County:

1. Repairs to the streets and sidewalks.
2. Family support groups.
3. A smoke shack at SSCC.
4. A Hookah Bar.
5. A Community Second Chance Program.
6. Age limit at The Warehouse changed to 21.
7. Mandatory holding of inebriated citizens for 24 hours in jail.
8. A sidewalk established from downtown to SSCC.
9. Establish a credit union.
10. Promote more neighborhood watches.
11. Utilities should revise policies to accommodate the needy.
12. Welfare reform.
13. A scientific and interactive facility like COSI.
14. Cheaper campsites.
15. Family D and D support groups.

4	more people who care	9/8/2017 3:17 PM
5	self help recovery center	9/6/2017 4:03 PM
6	Utility assistance for working families	8/30/2017 11:44 AM
7	Utility's	8/23/2017 6:44 PM
8	Housing is very difficult to find even if a person has a form of subsidy, disabled or not. Also, most subsidies have an EXTREMELY short time extended to assisted persons to find housing. This causes undue burden. If you have to rely on public transportation, are disabled, lack of housing, this doesn't create an "affordable housing" program. Subsidies should cover more of the rent, should not be as difficult to qualify for and they should not have such short time limits.	7/28/2017 8:08 AM
9	Parenting classes made available to consumers of CAC.	7/18/2017 5:28 PM
10	More funds directed to Housing authority	7/16/2017 6:45 PM

Community Needs Assessment

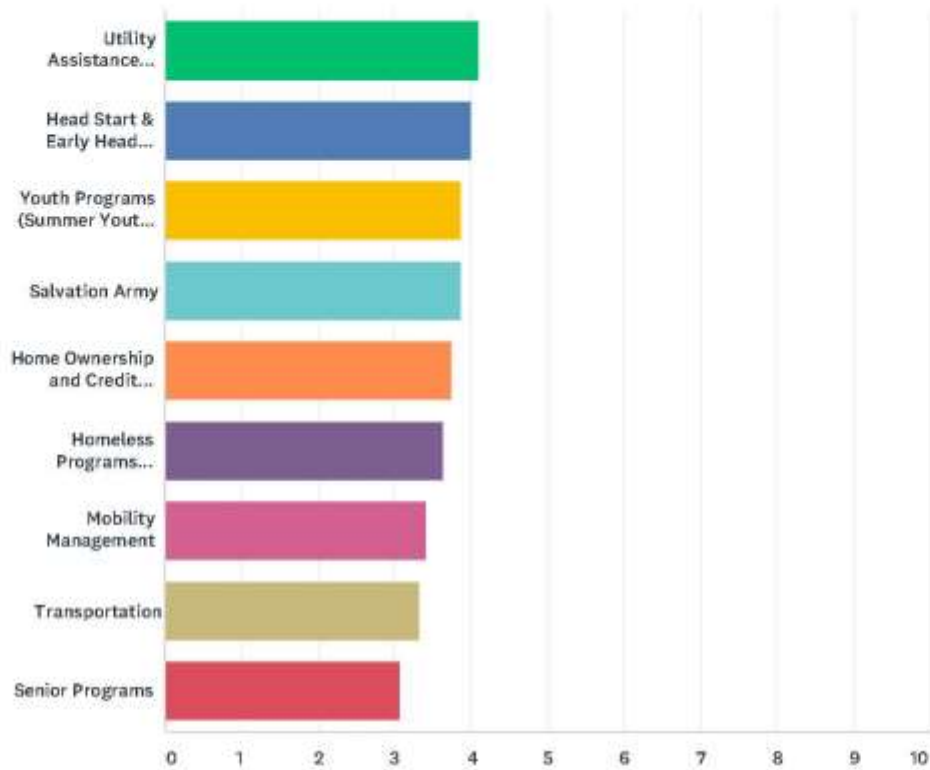

11	create a program for older youth whom surpass WIC eligibility for nutritional benefits whom have weight issues	7/12/2017 10:42 AM
12	Help in bringing in a marijuana dispensary	7/10/2017 4:31 PM
13	Bike trails	7/10/2017 2:14 PM
#	PRIORITY 3	DATE
1	strict prosecution of those bringing drugs here	9/13/2017 2:47 PM
2	have people who care	9/8/2017 3:17 PM
3	counseling SVS that dont require insurance	9/6/2017 4:03 PM
4	Rehab and addiction services	8/30/2017 11:44 AM
5	Food	8/23/2017 6:44 PM
6	Health care and counseling services should be easier to access. Medicaid was expanded for all except those that are disabled (the neediest) and now with Ohio being a 1634 state medically needy cannot spend down (though individual counties have their own plans and Ohio HAS the option for medically needy exceptions but has chosen not to). Ohio/more individual counties should assist with extending needed medical care to the medically needy.	7/28/2017 8:08 AM
7	Healthcare/Dental/Eye Clinics held a few times a year with set low costs.	7/18/2017 5:28 PM
8	Low income housing built more often	7/16/2017 6:45 PM
9	help seniors be more independent by providing a senior community with on site services	7/12/2017 10:42 AM
10	Group counseling (for opioid abuse) with marijuana	7/10/2017 4:31 PM
11	Sidewalks that go to YMCA	7/10/2017 2:14 PM
#	PRIORITY 4	DATE
1	mandatory rehab, and further support afterward	9/13/2017 2:47 PM
2	community programs	9/8/2017 3:17 PM
3	resources for the youth and seniors	9/6/2017 4:03 PM
4	Programs to reintroduce felons into the working world	8/30/2017 11:44 AM
5	Utility assistance should be expanded and better explained. Many times programs/discounts were not applied to members of the community and/or they could be improved upon. Also, for the disabled, the requirement that they physically go to community action places an undue burden on them (as well as those without access to reliable transportation/childcare). The forms could easily be filled out and returned without an in person interview.	7/28/2017 8:08 AM
6	Addition of more transportation services.	7/18/2017 5:28 PM
7	provide better daycare assistance for those whom work full time and are still under income guidelines	7/12/2017 10:42 AM
8	Funding into the WHY and HOW people become addicted in our community	7/10/2017 4:31 PM
9	Downtown rental housing	7/10/2017 2:14 PM
#	PRIORITY 5	DATE
1	create, locate, truly affordable homes	9/13/2017 2:47 PM
2	people who care	9/8/2017 3:17 PM
3	Youth activities and enrichment programs	8/30/2017 11:44 AM
4	Assistance with transportation/acquiring personal transportation.	7/28/2017 8:08 AM
5	Possible expansion of hours or days available for those in need of services, but unable to attend during normal hours due to work conflicts.	7/18/2017 5:28 PM
6	create a program for school aged youth kids after school with peer lead activities and homework/project assistance	7/12/2017 10:42 AM
7	Help in changing the community norm.	7/10/2017 4:31 PM

24	Utility's	8/23/2017 6:44 PM
25	Community involvement in school systems	8/17/2017 7:53 AM
26	Housing is very difficult to find even if a person has a form of subsidy, disabled or not. Also, most subsidies have an EXTREMELY short time extended to assisted persons to find housing. This causes undue burden. If you have to rely on public transportation, are disabled, lack of housing, this doesn't create an "affordable housing" program. Subsidies should cover more of the rent, should not be as difficult to qualify for and they should not have such short time limits.	7/28/2017 8:08 AM
27	Parenting classes made available to consumers of CAC.	7/18/2017 5:28 PM
28	stop giving people so much assistance. Makes it too easy to not work.	7/18/2017 4:14 PM
29	More mental/behavioral health services/treatment	7/17/2017 11:56 PM
30	More funds directed to Housing authority	7/16/2017 6:45 PM
31	Coordinate health, law enforcement, counseling, social services for drug and alcohol addiction needs to get beyond talking stages	7/15/2017 11:12 AM
32	create a program for older youth whom surpass WIC eligibility for nutritional benefits whom have weight issues	7/12/2017 10:42 AM
33	Parenting classes to understand child development	7/11/2017 4:38 PM
34	work readiness	7/11/2017 11:33 AM
35	School based drug prevention parents to attend	7/11/2017 11:01 AM
36	Affordable housing	7/11/2017 9:49 AM
37	Help in bringing in a marijuana dispensary	7/10/2017 4:31 PM
38	CAC provides some, but again we need more options	7/10/2017 3:55 PM

17	Food	8/23/2017 6:44 PM
18	Hold Boards Accountable	8/17/2017 7:53 AM
19	Health care and counseling services should be easier to access. Medicaid was expanded for all except those that are disabled (the neediest) and now with Ohio being a 1634 state medically needy cannot spend down (though individual counties have their own plans and Ohio HAS the option for medically needy exceptions but has chosen not to). Ohio/more individual counties should assist with extending needed medical care to the medically needy.	7/28/2017 8:08 AM
20	Healthcare/Dental/Eye Clinics held a few times a year with set low costs.	7/18/2017 5:28 PM
21	finance & budgeting education	7/18/2017 4:14 PM
22	More inpatient and out patient services for drug rehab	7/17/2017 11:56 PM
23	Low income housing built more often	7/16/2017 6:45 PM
24	Cooperation and bipartisan efforts that are genuine to address local, state and federal problems	7/15/2017 11:12 AM
25	help seniors be more independent by providing a senior community with on site services	7/12/2017 10:42 AM

14	Free parent skills training at schools while kids involved in other activities	8/17/2017 7:53 AM
15	Utility assistance should be expanded and better explained. Many times programs/discounts were not applied to members of the community and/or they could be improved upon. Also, for the disabled, the requirement that they physically go to community action places an undue burden on them (as well as those without access to reliable transportation/childcare). The forms could easily be filled out and returned without an in person interview.	7/28/2017 8:08 AM
16	Addition of more transportation services.	7/18/2017 5:28 PM
17	More time allotted in schools for prevention programs	7/17/2017 11:56 PM

Demographics

Current population demographics and changes in demographic composition over time play a determining role in the types of health and social services needed by communities.

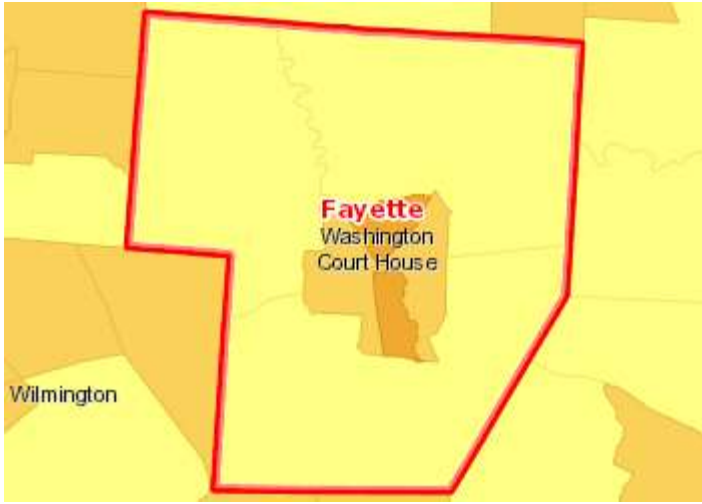

Data Indicators		
• Total Population	• Population Age 5-17	• Population with Any Disability
• Change in Total Population	• Population Age 18-64	• Population in Limited English Households
• Families with Children	• Population Age 18-24	• Population with Limited English Proficiency
• Female Population	• Population Age 25-34	• Population Geographic Mobility
• Male Population	• Population Age 35-44	• Foreign-Born Population
• Median Age	• Population Age 45-54	• Hispanic Population
• Population Under Age 18	• Population Age 55-64	• Urban and Rural Population
• Population Age 0-4	• Population Age 65	• Veteran Population

Total Population

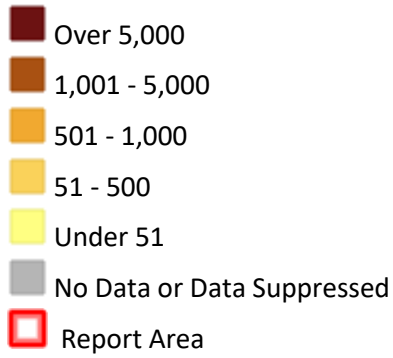

A total of 28,769 people live in the 406.36 square mile report area defined for this assessment according to the U.S. Census Bureau American Community Survey 2011-15 5-year estimates. The population density for this area, estimated at 70.8 persons per square mile, is less than the national average population density of 89.61 persons per square mile.

Change in Total Population

According to the United States Census Bureau Decennial Census, between 2000 and 2010 the population in the report area grew by 597 persons, a change of 2.1%. A significant positive or negative shift in total population over time impacts healthcare providers and the utilization of community resources.

Families with Children

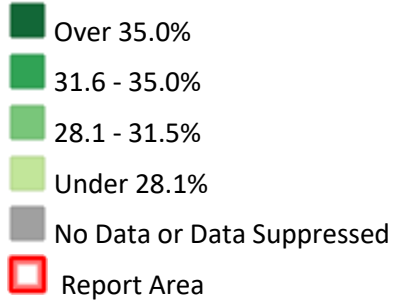

According to the most recent the American Community Survey estimates, 32.58% of all occupied households in the report area are family households with one or more child(ren) under the age of 18. As [defined](#) by the US Census Bureau, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

Population Under Age 18

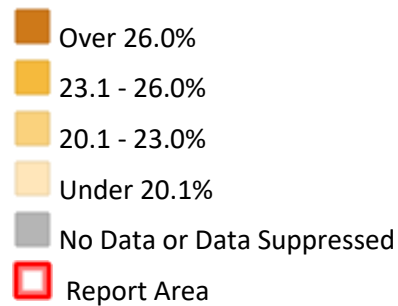

An estimated 24.01% of the population in the report area is under the age of 18 according to the U.S. Census Bureau American Community Survey 2011-15 5-year estimates. An estimated total of 6,907 youths resided in the area during this time period. The number of persons under age 18 is relevant because this population has unique health needs which should be considered separately from other age groups.

Population with Any Disability

This indicator reports the percentage of the total civilian non-institutionalized population with a disability. This indicator is relevant because disabled individuals comprise a vulnerable population that requires targeted services and outreach by providers.

Population in Limited English Households

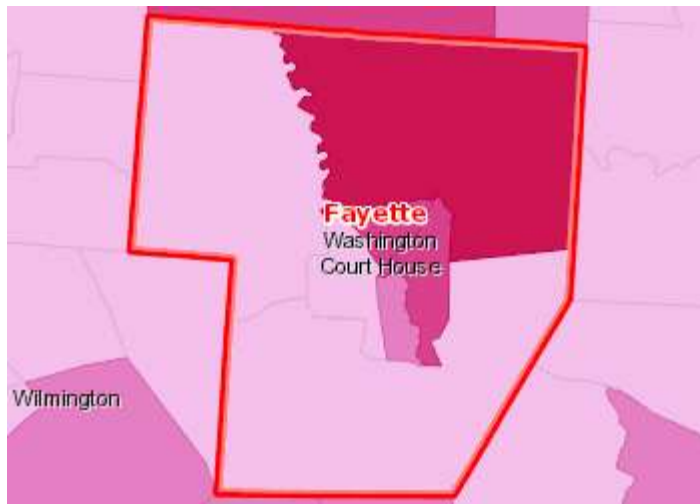

This indicator reports the percentage of the population aged 5 and older living in Limited English speaking households. A “Limited English speaking household” is one in which no member 14 years old and over (1) speaks only English at home or (2) speaks a language other than English at home and speaks English “Very well.” This indicator is significant as it identifies households and populations that may need English-language assistance.

Population with Limited English Proficiency

This indicator reports the percentage of the population aged 5 and older who speak a language other than English at home and speak English less than "very well." This indicator is relevant because an inability to speak English well creates barriers to healthcare access, provider communications, and health literacy/education.

Report Area	Population Age 5	Population Age 5 with Limited English Proficiency	Percent Population Age 5 with Limited English Proficiency

Population Geographic Mobility

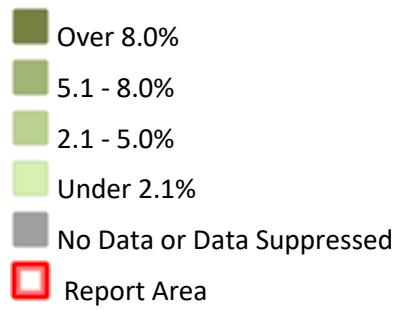

This indicator reports information about population in-migration by assessing changes in residence within a one year period. Of the 28,384 persons residing in the report area, an estimated 6.53% relocated to the area, according to the latest American Community Survey 5-year estimates. Persons who moved to a new household from outside of their current county of residence, from outside their state of residence, or from abroad are considered part of the in-migrated population. Persons who moved to a new household from a different household within their current county of residence are not included.

Foreign-Born Population

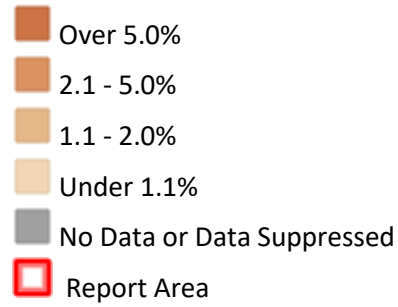

This indicator reports the percentage of the population that is foreign-born. The foreign-born population includes anyone who was not a U.S. citizen or a U.S. national at birth. This includes any non-citizens, as well as persons born outside of the U.S. who have become naturalized citizens. The native U.S. population includes any person born in the United States, Puerto Rico, a U.S. Island Area (such as Guam), or abroad of American (U.S. citizen) parent or parents. The latest figures from the U.S. Census Bureau show that 442 persons in the report area are of foreign birth, which represents 1.54% of the report area population. This percentage is less than the national rate of 13.18%.

Hispanic Population

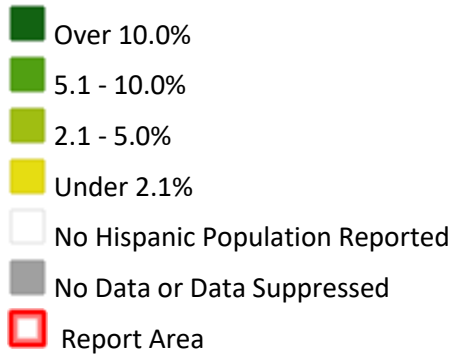

The estimated population that is of Hispanic, Latino, or Spanish origin in the report area is 526. This represents 1.83% of the total report area population, which is less than the national 17.13% rate. Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person’s parents or ancestors before their arrival in the United States. People who identify their origin as Hispanic, Latino, or Spanish may be of any race.

Urban and Rural Population

This indicator reports the percentage of population living in urban and rural areas. Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban.

Report Area	Total Population	Urban Population	Rural Population	Percent Urban	Percent Rural

Social Economic Factors

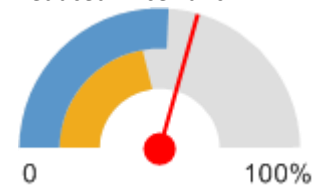

Economic and social insecurity often are associated with poor health. Poverty, unemployment, and lack of educational achievement affect access to care and a community’s ability to engage in healthy behaviors. Without a network of support and a safe community, families cannot thrive. Ensuring access to social and economic resources provides a foundation for a healthy community.

Children Eligible for Free/Reduced Price Lunch

Within the report area 2,854 public school students or 58.89% are eligible for Free/Reduced Price lunch out of 4,846 total students enrolled. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs. Additionally, when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Children Eligible for Free Lunch (Alone) by Year, 2009-10 through 2012-13

The table below shows local, state, and National trends in student free and reduced lunch eligibility.

Note: Data for the 2011-12 school year are omitted due to lack of data for some states.

Report Area	2010-11	2012-13	2013-14	2014-15
Fayette County, OH	50.09%	54.06%	55.88%	58.89%
Ohio	42.63%	40.72%	44.59%	45.06%
United States	48.15%	51.32%	51.99%	51.8%

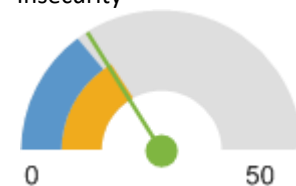

Food Insecurity Rate

This indicator reports the estimated percentage of the population that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

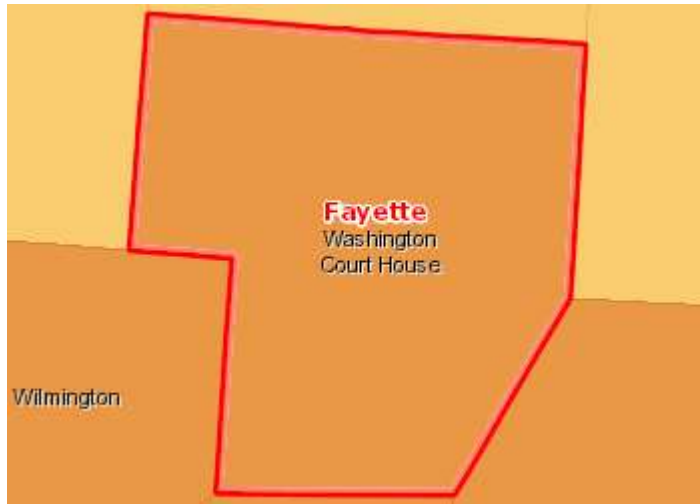

Report Area	Total Population	Food Insecure Population, Total	Food Insecurity Rate
Fayette County, OH	28,875	4,660	16.14%
Ohio	11,594,163	1,943,340	16.8%
United States	318,198,163	47,448,890	14.91%

Food Insecure Population, Percent by County, Feeding America 2014

Food Insecurity - Food Insecure Children

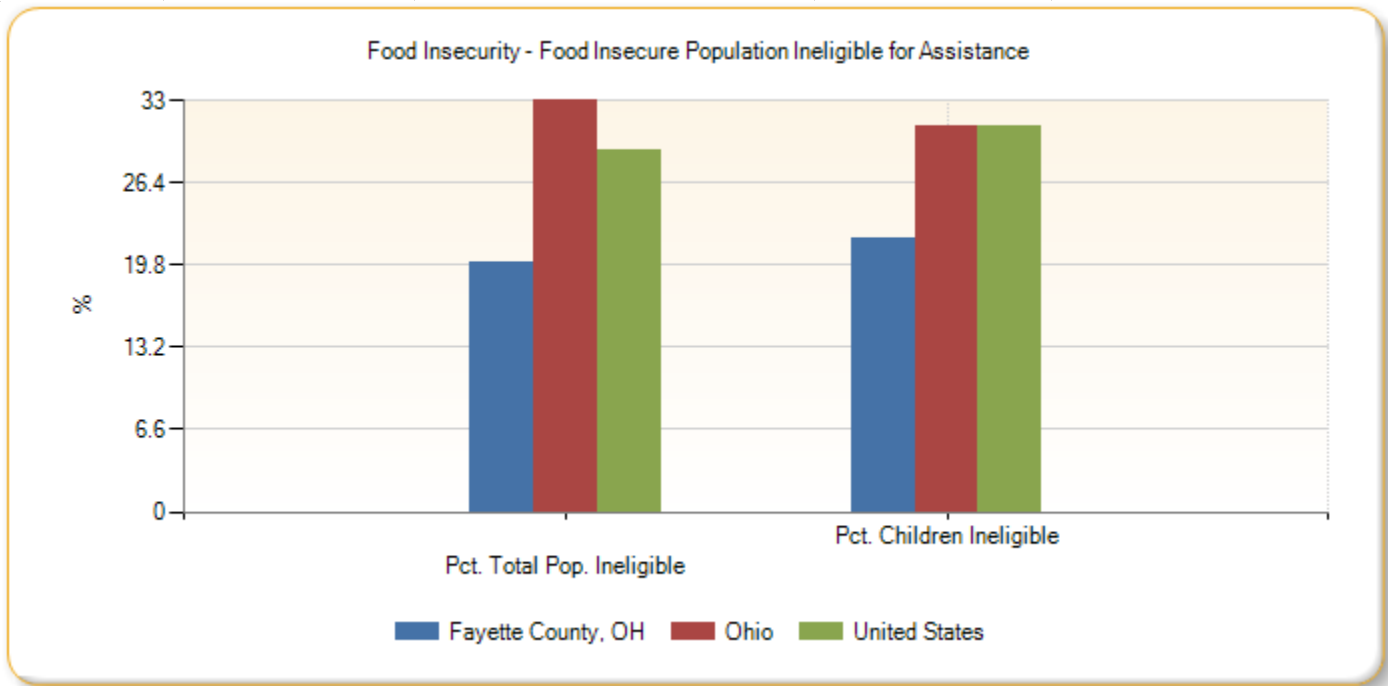

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

Report Area	Population Under Age 18	Food Insecure Children, Total	Child Food Insecurity Rate
Fayette County, OH	7,032	1,940	27.59%
Ohio	2,648,786	653,410	24.67%
United States	73,580,326	17,284,530	23.49%

Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

Report Area	Food Insecure Population, Total	Percentage of Food Insecure Population Ineligible for Assistance	Food Insecure Children, Total	Percentage of Food Insecure Children Ineligible for Assistance
Fayette County, OH	4,870	20%	1,940	22.01%
Ohio	1,951,880	33%	653,410	31%
United States	48,770,990	29%	17,284,530	31%

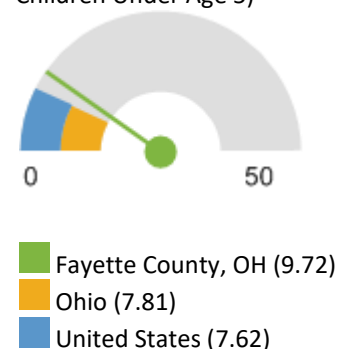

Head Start

This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2015 Head Start locator. Population data is from the 2010 US Decennial Census.

Report Area	Total Children Under Age 5	Total Head Start Programs	Head Start Programs, Rate (Per 10,000 Children)

High School Graduation Rate (EdFacts)

Within the report area 91.8% of students are receiving their high school diploma within four years. Data represents the 2014-15 school year for all states except California and Texas. In these states, data from the 2013-14 school year is reported.

This indicator is relevant because research suggests education is one the strongest predictors of health ([Freudenberg Ruglis, 2007](#)).

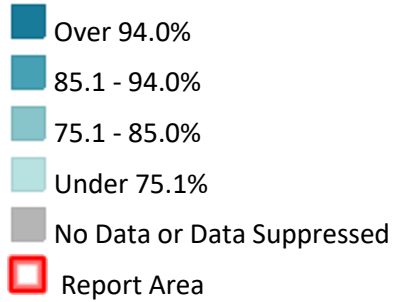

Report Area	Total Student Cohort	Estimated Number of Diplomas Issued	Cohort Graduation Rate
Fayette County, OH	341	313	91.8
Ohio	119,987	105,127	87.6
United States	1,846,428	2,648,271	143.4

United States	2,498,250	3.34%	8,130,224	10.88%

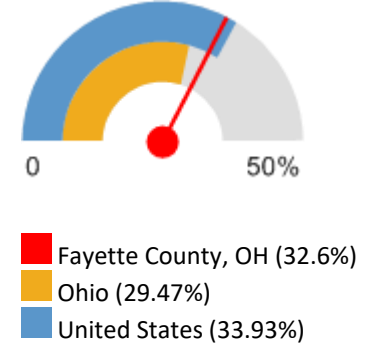

Housing Cost Burden (30%)

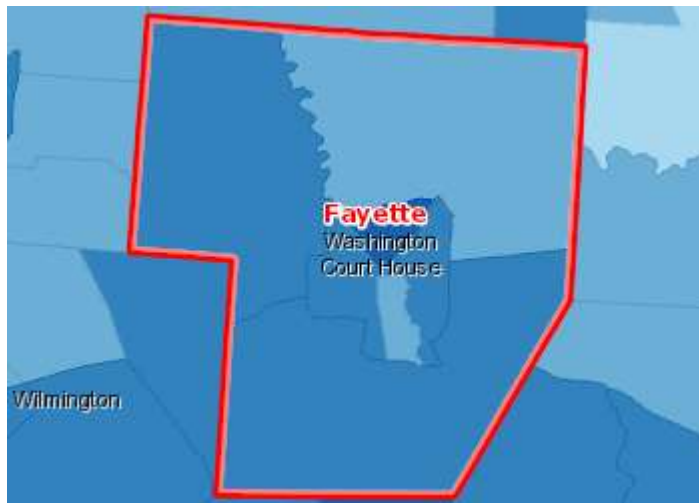

This indicator reports the percentage of the households where housing costs exceed 30% of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels.

Report Area	Total Households	Cost Burdened Households (Housing Costs Exceed 30% of Income)	Percentage of Cost Burdened Households (Over 30% of Income)
Fayette County, OH	11,589	3,778	32.6%

Cost Burdened Households by Tenure, Total

This data shows the number of households that spend more than 30% of the household income on housing costs. In the report area, there were 3,778 cost burdened households according to the U.S. Census Bureau American Community Survey (ACS) 200-2015 5-year estimates. The data for this indicator is only reported for households where household

housing costs and income earned was identified in the American Community Survey.

Report Area	Cost Burdened Households	Cost Burdened Rental Households	Cost Burdened Owner Occupied Households (With Mortgage)	Cost Burdened Owner Occupied Households (With No Mortgage)
Fayette County, OH	3,778	2,153	1,320	305

Income - Families Earning Over \$75,000

In the report area, 28.03%, or 2,150 families report a total annual income of \$75,000 or greater. Total income includes all reported income from wages and salaries as well as income from self-employment, interest or dividends, public assistance, retirement, and other sources. As [defined](#) by the US Census Bureau, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

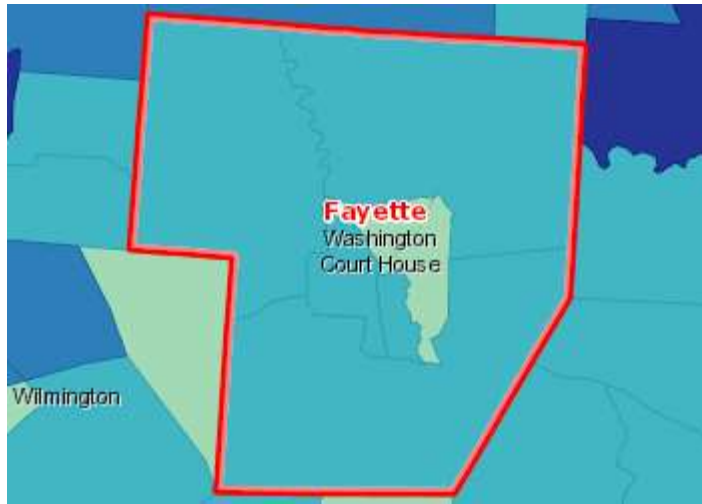

Report Area	Total Families	Families with Income Over \$75,000	Percent Families with Income Over \$75,000
Fayette County, OH	7,669	2,150	28.03%

Income - Inequality (GINI Index)

This indicator reports income inequality using the Gini coefficient. Gini index values range between zero and one. A value of one indicates perfect inequality where only one house-hold has any income. A value of zero indicates perfect equality, where all households have equal income. Index values are acquired from the 2011-15 American Community Survey and are not available for custom report areas or multi-county areas.

Insurance - Population Receiving Medicaid

This indicator reports the percentage of the population with insurance enrolled in Medicaid (or other means-tested public health insurance). This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Report Area	Total Population (For Whom Insurance Status is Determined)	Population with Any Health Insurance	Population Receiving Medicaid	Percent of Insured Population Receiving Medicaid

Insurance - Uninsured Adults

The lack of health insurance is considered a *key driver* of health status.

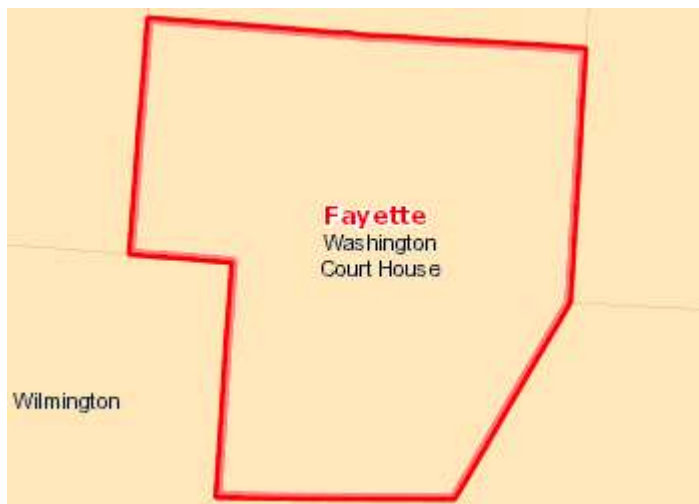

This indicator reports the percentage of adults age 18 to 64 without health insurance coverage. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

Report Area	Total Population Age 18 - 64	Population with Medical Insurance	Percent Population With Medical Insurance	Population Without Medical Insurance	Percent Population Without Medical Insurance

Lack of Social or Emotional Support

This indicator reports the percentage of adults aged 18 and older who self-report that they receive insufficient social and emotional support all or most of the time. This indicator is relevant because social and emotional support is critical for navigating the challenges of daily life as well as for good mental health. Social and emotional support is also linked to educational achievement and economic stability.

Report Area	Total Population Age 18	Estimated Population Without Adequate Social / Emotional Support	Crude Percentage	Age-Adjusted Percentage

Inadequate Social/Emotional Support, Percent of Adults Age 18 by County, BRFSS 2006-12

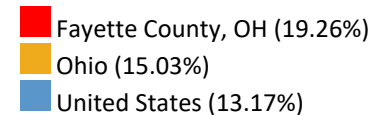

Population Receiving SNAP Benefits (ACS)

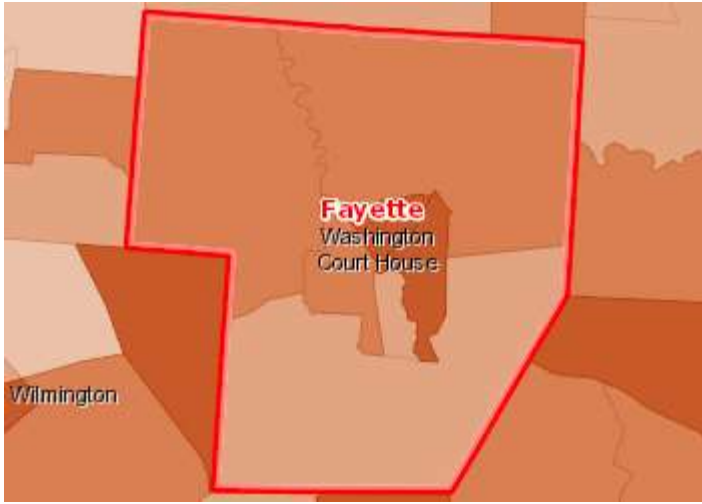

This indicator reports the estimated percentage of households receiving the Supplemental Nutrition Assistance Program (SNAP) benefits. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrolment.

Student Reading Proficiency (4th Grade)

This indicator reports the percentage of children in grade 4 whose reading skills tested below the "proficient" level for the English Language Arts portion of the state-specific standardized test. This indicator is relevant because an inability to read English well is linked to poverty, unemployment, and barriers to healthcare access, provider communications, and health literacy/education.

Teen Births

This indicator reports the rate of total births to women age of 15 - 19 per 1,000 female population age 15 - 19. This indicator is relevant because in many cases, teen parents have unique social, economic, and health support services. Additionally, high rates of teen pregnancy may indicate the prevalence of unsafe sex practices.

Unemployment Rate

Total unemployment in the report area for the current month was 558, or 3.9% of the civilian non-institutionalized population age 16 and older (non-seasonally adjusted). This indicator is relevant because unemployment creates financial instability and barriers to access including insurance coverage, health services, healthy food, and other necessities that contribute to poor health status.

Violent Crime

This indicator reports the rate of violent crime offenses reported by law enforcement per 100,000 residents. Violent crime includes homicide, rape, robbery, and aggravated assault. This indicator is relevant because it assesses community safety.

Report Area	Total Population	Violent Crimes	Violent Crime Rate (Per 100,000 Pop.)
Fayette County, OH	28,984	44	153
Ohio	10,917,635	34,148	312.8
United States	306,859,354	1,213,859	395.5

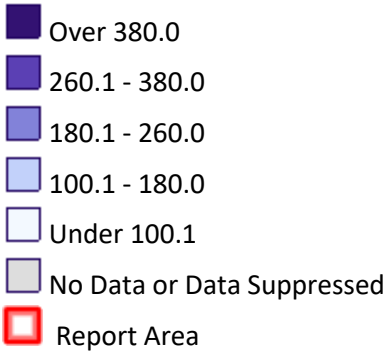

Data Source: Federal Bureau of Investigation, FBI Uniform Crime Reports. Additional analysis by the National Archive of Criminal Justice Data. Accessed via the Inter-university Consortium for Political and Social Research. 2010-12. Source geography: County

Violent Crimes, All, Rate (Per 100,000 Pop.) by County, FBI UCR 2010-12

Physical Environment

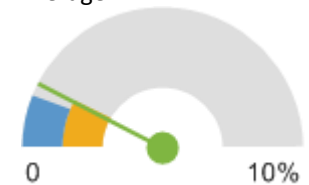

A community's health also is affected by the physical environment. A safe, clean environment that provides access to healthy food and recreational opportunities is important to maintaining and improving community health.

Air Quality - Ozone

Within the report area, 5.57, or 1.53% of days exceeded the emission standard of 75 parts per billion (ppb). This indicator reports the percentage of days per year with Ozone (O₃) levels above the National Ambient Air Quality Standard of 75 parts per billion (ppb). Figures are calculated using data collected by monitoring stations and modeled to include census tracts where no monitoring stations exist. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

Report Area	Total Population	Average Daily Ambient Ozone Concentration	Number of Days Exceeding Emissions Standards	Percentage of Days Exceeding Standards, Crude Average	Percentage of Days Exceeding Standards, Pop. Adjusted Average
Fayette County, OH	29,030	43.18	5.57	1.53%	1.53%

United States	13.03%	7.1%	2.47%	5.69%	7.42%	35.72%

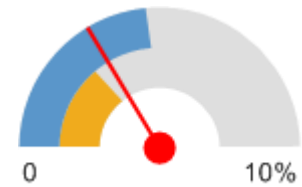

Climate Health - High Heat Index Days

This indicator reports the percentage of recorded weather observations with heat index values over 103 degrees Fahrenheit. The "heat index" is a single value that takes both temperature and humidity into account. The higher the heat index, the hotter the weather feels, since sweat does not readily evaporate and cool the skin. The heat index is a better measure than air temperature alone for estimating the risk to workers from environmental heat sources.

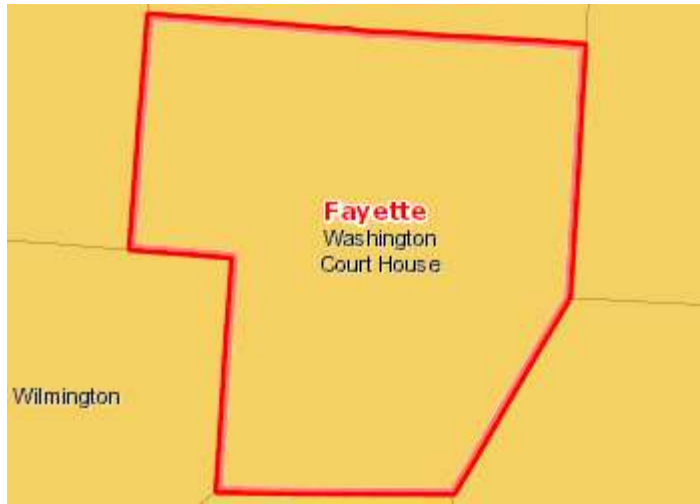

Report Area	Total Weather Observations	Average Heat Index Value	Observations with High Heat Index Values	Observations with High Heat Index Values, Percentage
Fayette County, OH	2,920	92.77	96	3.29%
Ohio	263,165	92.36	7,373	2.8%

High Heat Index Days, Percentage of Observations Over 103°F by County, NLDAS 2014

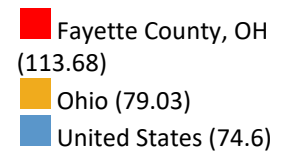

Food Access - Fast Food Restaurants

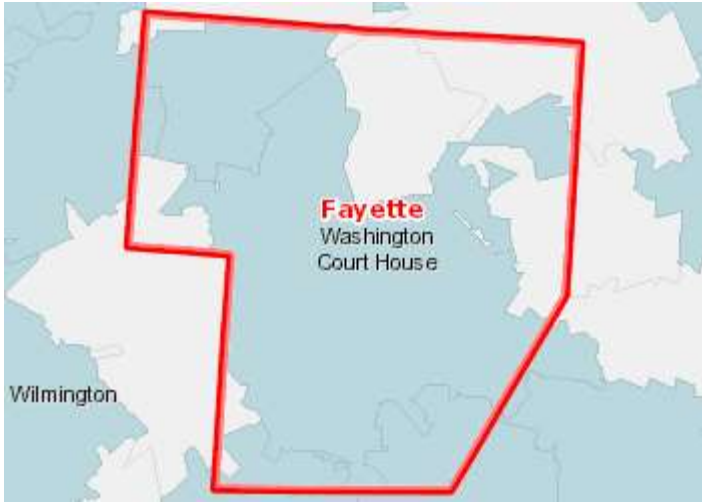

This indicator reports the number of fast food restaurants per 100,000 population. Fast food restaurants are defined as limited-service establishments primarily engaged in providing food services (except snack and nonalcoholic beverage bars) where patrons generally order or select items and pay before eating. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

Report Area	Total Population	Number of Establishments	Establishments, Rate per 100,000 Population
Fayette County, OH	29,030	33	113.68
Ohio	11,536,504	9,117	79.03

Food Access - Grocery Stores

This indicator reports the number of grocery stores per 100,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Included are delicatessen-type establishments. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores are excluded. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

Report Area	Total Population	Number of Establishments	Establishments, Rate per 100,000 Population
Fayette County, OH	29,030	6	20.67

Food Access - Low Food Access

This indicator reports the percentage of the population living in census tracts designated as food deserts. A food desert is defined as a low-income census tract (where a substantial number or share of residents has low access to a supermarket or large grocery store. This indicator is relevant because it highlights populations and geographies facing food insecurity.

Report Area	Total Population	Population with Low Food Access	Percent Population with Low Food Access

Food Access - WIC-Authorized Food Stores

This indicator reports the number of food stores and other retail establishments per 100,000 population that are authorized to accept WIC Program (Special Supplemental Nutrition Program for Women, Infants, and Children) benefits and that carry designated WIC foods and food categories. This indicator is relevant because it provides a measure of food security and healthy food access for women and children in poverty as well as environmental influences on dietary behaviors.

Housing - Housing Unit Age

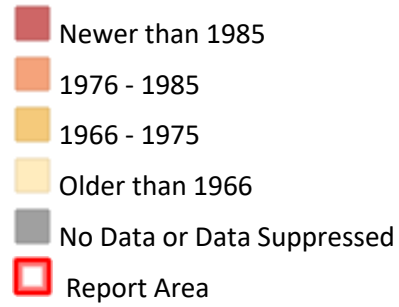

This indicator reports, for a given geographic area, the median year in which all housing units (vacant and occupied) were first constructed. The year the structure was built provides information on the age of housing units. These data help identify new housing construction and measures the disappearance of old housing from the inventory, when used in combination with data from previous years. This data also serves to aid in the development of formulas to determine substandard housing and provide assistance in forecasting future services, such as energy consumption and fire protection.

Report Area	Total Housing Units	Median Year Structures Built

United States	70.76%	25.93%	2.32%	0.73%	0.27%

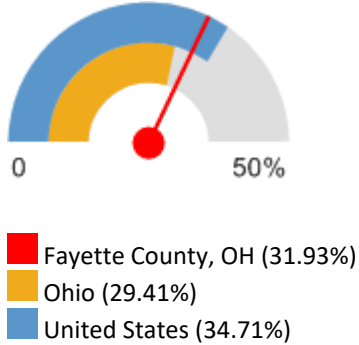

Housing - Substandard Housing

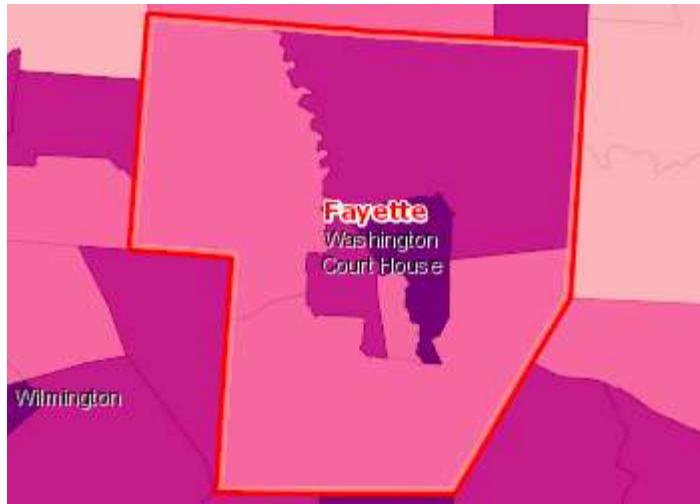

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1.01 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than 30%, and 5) gross rent as a percentage of household income greater than 30%. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard.

Report Area	Total Occupied Housing Units	Occupied Housing Units with One or More Substandard Conditions	Percent Occupied Housing Units with One or More Substandard Conditions
Fayette County, OH	11,589	3,700	31.93%
Ohio	4,585,084	1,348,580	29.41%

Substandard Housing Units, Percent of Total by Tract, ACS 2011-15

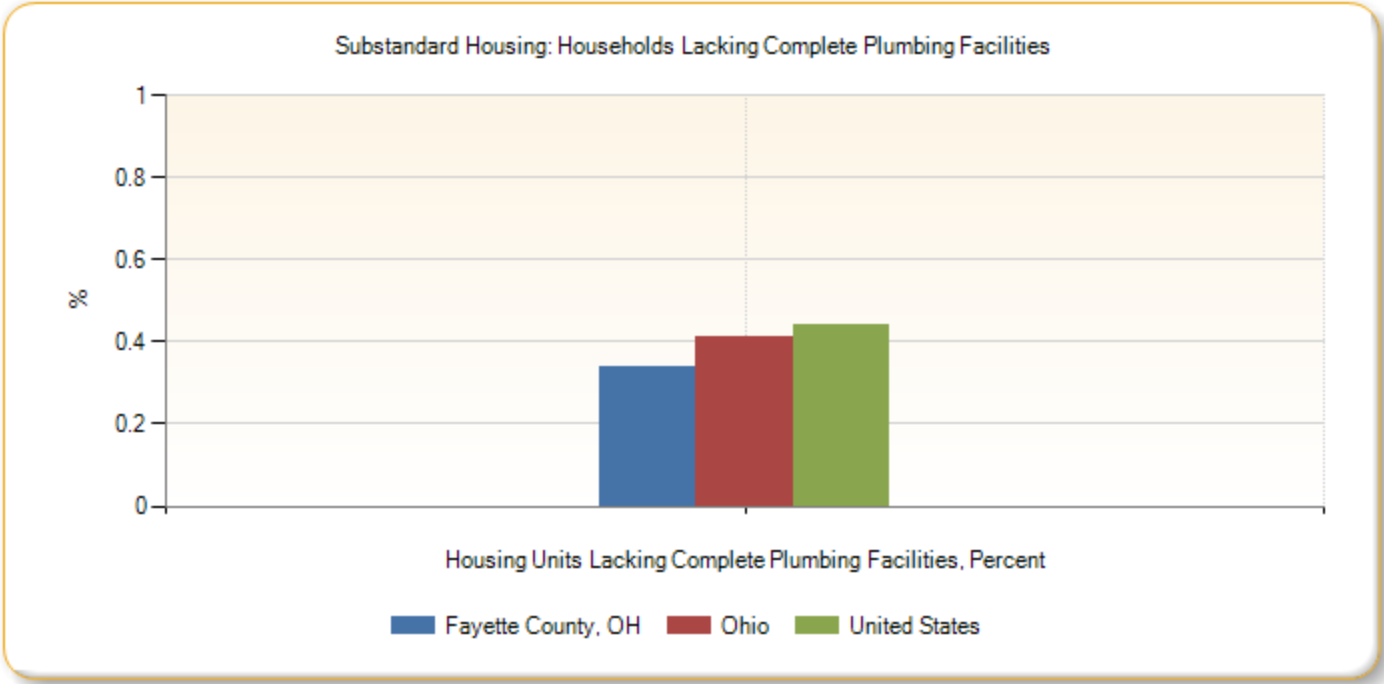

Substandard Housing: Number of Substandard Conditions Present

Report Area	No Conditions	One Condition	Two or Three Conditions	Four Conditions
Fayette County, OH	68.07%	31.22%	0.71%	0%
Ohio	70.59%	28.28%	1.13%	0.01%
United States	65.29%	32.63%	2.07%	0.01%

Substandard Housing: Households Lacking Complete Plumbing Facilities

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

Report Area	Total Occupied Housing Units	Housing Units Lacking Complete Plumbing Facilities	Housing Units Lacking Complete Plumbing Facilities, Percent
Fayette County, OH	11,589	39	0.34%
Ohio	4,585,084	18,687	0.41%
United States	116,926,305	508,997	0.44%

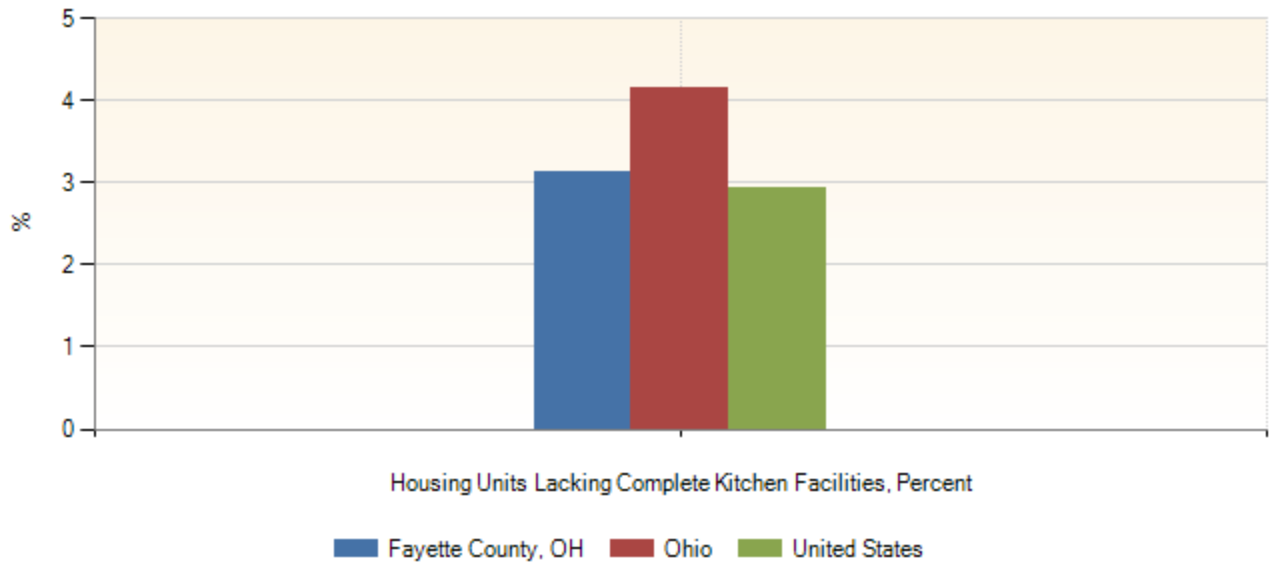

Substandard Housing: Households Lacking Complete Kitchen Facilities

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

Report Area	Total Occupied Housing Units	Housing Units Lacking Complete Kitchen Facilities	Housing Units Lacking Complete Kitchen Facilities, Percent
Fayette County, OH	12,668	397	3.13%
Ohio	5,140,902	212,837	4.14%
United States	133,351,840	3,903,896	2.93%

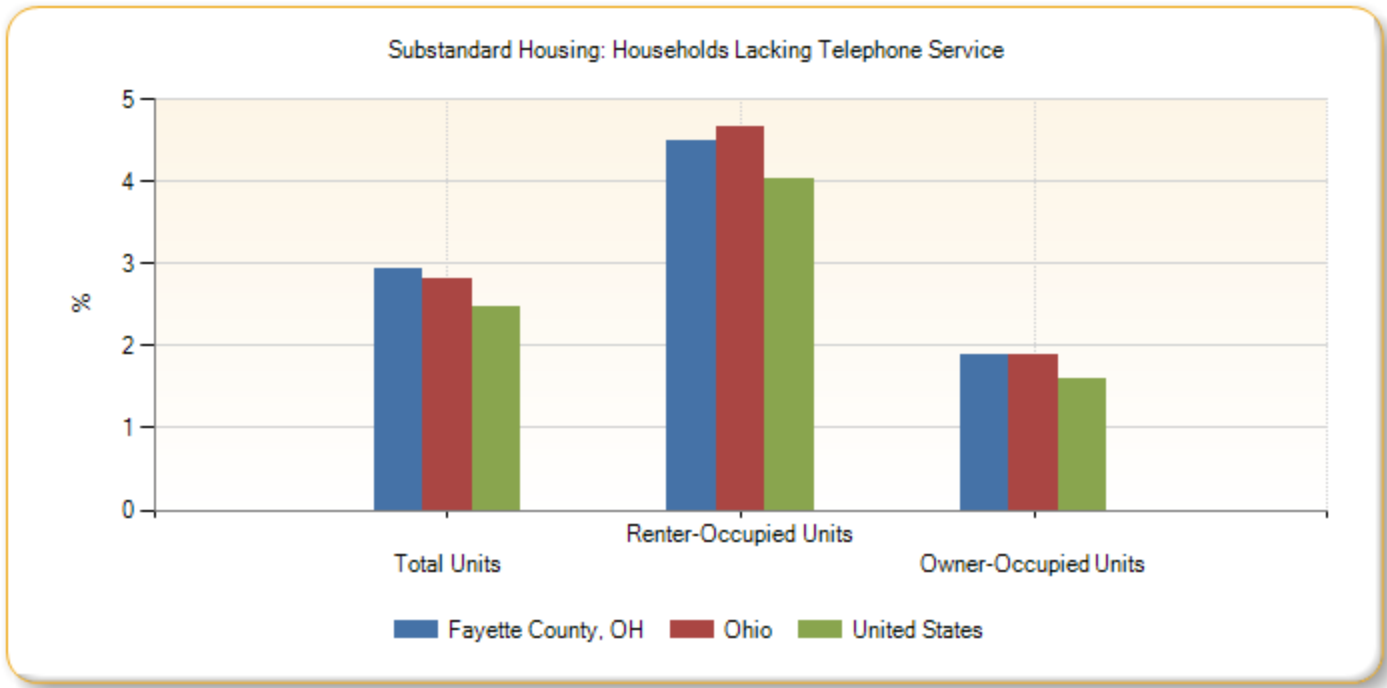

Substandard Housing: Households Lacking Complete Kitchen Facilities

Substandard Housing: Households Lacking Telephone Service

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

Report Area	Total Housing Units Lacking Telephone Service	Total Housing Units Lacking Telephone Service	Owner-Occupied Units Lacking Telephone Service	Owner-Occupied Units Lacking Telephone Service	Renter-Occupied Units Lacking Telephone Service	Renter-Occupied Units Lacking Telephone Service

United States	2,896,405	2.48%	1,197,760	1.6%	1,698,645	4.02%

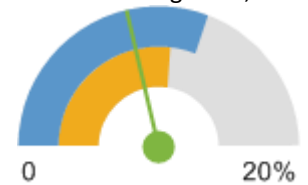

Housing - Vacancy Rate

This indicator reports the number and percentage of housing units that are vacant. A housing unit is considered vacant by the American Community Survey if no one is living in it at the time of interview. Units occupied at the time of interview entirely by persons who are staying two months or less and who have a more permanent residence elsewhere are considered to be temporarily occupied, and are classified as “vacant.”

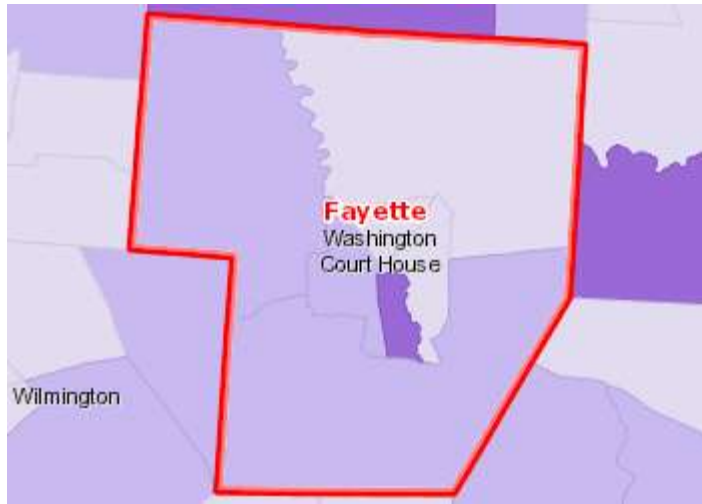

Report Area	Total Housing Units	Vacant Housing Units	Vacant Housing Units, Percent
Fayette County, OH	12,668	1,079	8.52%
Ohio	5,140,902	555,818	10.81%

Liquor Store Access

This indicator reports the number of beer, wine, and liquor stores per 100,000 population, as defined by North American Industry Classification System (NAICS) Code 445310. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

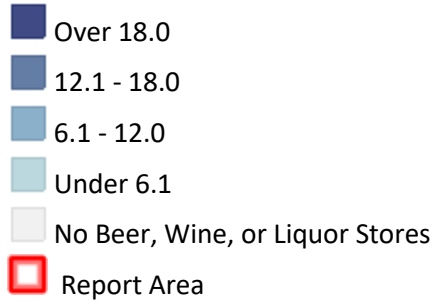

Report Area	Total Population	Number of Establishments	Establishments, Rate per 100,000 Population
Fayette County, OH	29,030	0	0

Clinical Care

A lack of access to care presents barriers to good health. The supply and accessibility of facilities and physicians, the rate of uninsurance, financial hardship, transportation barriers, cultural competency, and coverage limitations affect access.

Rates of morbidity, mortality, and emergency hospitalizations can be reduced if community residents access services such as health screenings, routine tests, and vaccinations. Prevention indicators can call attention to a lack of access or knowledge regarding one or more health issues and can inform program interventions.

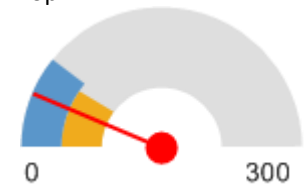

Access to Dentists

This indicator reports the number of dentists per 100,000 population. This indicator includes all dentists - qualified as having a doctorate in dental surgery (D.D.S.) or dental medicine (D.M.D.), who are licensed by the state to practice dentistry and who are practicing within the scope of that license.

Report Area	Total Population, 2015	Dentists, 2015	Dentists, Rate per 100,000 Pop.

Access to Primary Care

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

Cancer Screening - Mammogram

This indicator reports the percentage of female Medicare enrollees, age 67-69, who have received one or more mammograms in the past two years. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Report Area	Total Medicare Enrollees	Female Medicare Enrollees Age 67-69	Female Medicare Enrollees with Mammogram in Past 2 Years	Percent Female Medicare Enrollees with Mammogram in Past 2 Year

Diabetes Management - Hemoglobin A1c Test

This indicator reports the percentage of diabetic Medicare patients who have had a hemoglobin A1c (hA1c) test, a blood test which measures blood sugar levels, administered by a health care professional in the past year. In the report area, 262 Medicare enrollees with diabetes have had an annual exam out of 304 Medicare enrollees in the report area with diabetes, or 86.2%. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Ohio	83.21	83.44	82.93	83.93	84.37	86.23	86.29
United States	82.71	83.52	83.81	84.18	84.57	84.92	85.16

Facilities Designated as Health Professional Shortage Areas

This indicator reports the number and location of health care facilities designated as "Health Professional Shortage Areas" (HPSAs), defined as having shortages of primary medical care, dental or mental health providers. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

Report Area	Primary Care Facilities	Mental Health Care Facilities	Dental Health Care Facilities	Total HPSA Facility Designations
Fayette County, OH	2	0	2	4
Ohio	85	79	67	231
United States	3,599	3,171	3,071	9,836

Federally Qualified Health Centers

This indicator reports the number of Federally Qualified Health Centers (FQHCs) in the community. This indicator is relevant because FQHCs are community assets that provide health care to vulnerable populations; they receive extra funding from the federal government to promote access to ambulatory care in areas designated as medically underserved.

Report Area	Total Population	Number of Federally Qualified Health Centers	Rate of Federally Qualified Health Centers per 100,000 Population

High Blood Pressure Management

This indicator is relevant because engaging in preventive behaviors decreases the likelihood of developing future health problems. When considered with other indicators of poor health, this indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Report Area	Total Population (Age 18)	Total Adults Not Taking Blood Pressure Medication (When Needed)	Percent Adults Not Taking Medication

HIV Screenings

This indicator reports the percentage of adults age 18-70 who self-report that they have never been screened for HIV. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health

problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Lack of a Consistent Source of Primary Care

This indicator reports the percentage of adults aged 18 and older who self-report that they do not have at least one person who they think of as their personal doctor or health care provider. This indicator is relevant because access to regular primary care is important to preventing major health issues and emergency department visits.

Report Area	Survey Population (Adults Age 18)	Total Adults Without Any Regular Doctor	Percent Adults Without Any Regular Doctor

Lack of Prenatal Care

This indicator reports the percentage of women who do not obtain prenatal care during their first trimester of pregnancy. This indicator is relevant because engaging in prenatal care decreases the likelihood of maternal and infant

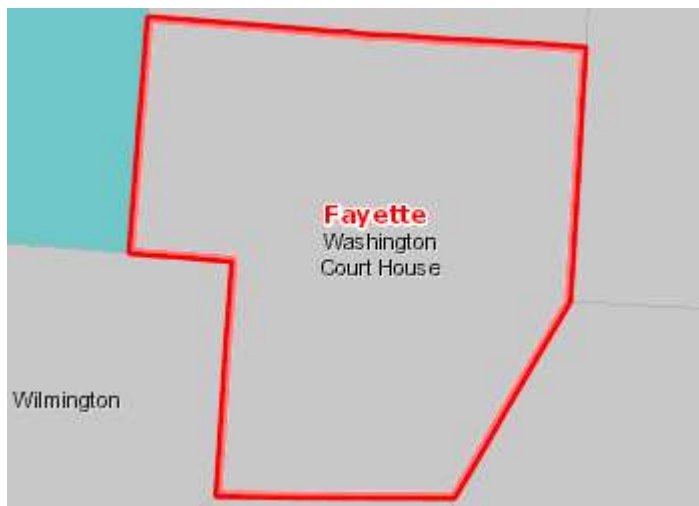

health risks. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Population Living in a Health Professional Shortage Area

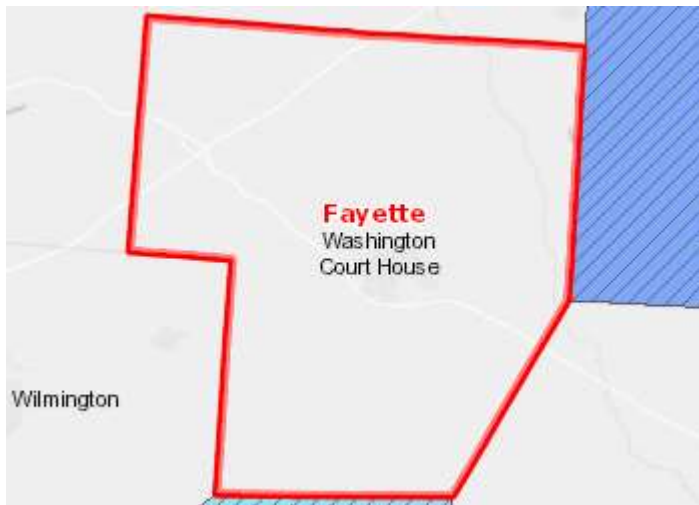

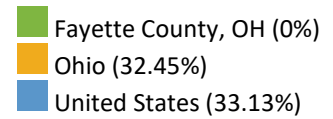

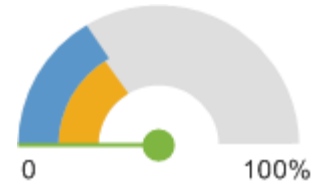

This indicator reports the percentage of the population that is living in a geographic area designated as a "Health Professional Shortage Area" (HPSA), defined as having a shortage of primary medical care, dental or mental health professionals. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

Report Area	Total Area Population	Population Living in a HPSA	Percentage of Population Living in a HPSA

Preventable Hospital Events

This indicator reports the discharge rate (per 1,000 Medicare enrollees) for conditions that are ambulatory care sensitive (ACS). ACS conditions include pneumonia, dehydration, asthma, diabetes, and other conditions which could have been prevented if adequate primary care resources were available and accessed by those patients. This indicator is relevant because analysis of ACS discharges allows demonstrating a possible “return on investment” from interventions that reduce admissions (for example, for uninsured or Medicaid patients) through better access to primary care resources.

Health Behaviors

Health behaviors such as poor diet, a lack of exercise, and substance abuse contribute to poor health status.

Alcohol Consumption

This indicator reports the percentage of adults aged 18 and older who self-report heavy alcohol consumption (defined as more than two drinks per day on average for men and one drink per day on average for women). This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as cirrhosis, cancers, and untreated mental and behavioral health needs.

Health Outcomes

Measuring morbidity and mortality rates allows assessing linkages between social determinants of health and outcomes. By comparing, for example, the prevalence of certain chronic diseases to indicators in other categories (e.g., poor diet and exercise) with outcomes (e.g., high rates of obesity and diabetes), various causal relationship may emerge, allowing a better understanding of how certain community health needs may be addressed.

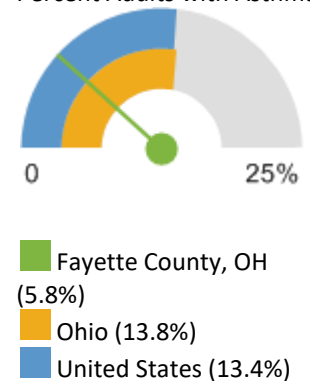

Asthma Prevalence

This indicator reports the percentage of adults aged 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This indicator is relevant because asthma is a prevalent problem in the U.S. that is often exacerbated by poor environmental conditions.

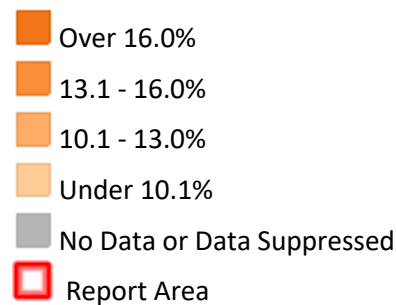

Report Area	Survey Population (Adults Age 18)	Total Adults with Asthma	Percent Adults with Asthma
Fayette County, OH	25,560	1,477	5.8%

Cancer Incidence - Breast

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of females with breast cancer adjusted to 2000 U.S. standard population age groups (Under Age 1, 1-4, 5-9, ..., 80-84, 85 and older). This indicator is relevant because cancer is a leading cause of death and it is important to identify cancers separately to better target interventions.

Cancer Incidence - Cervical

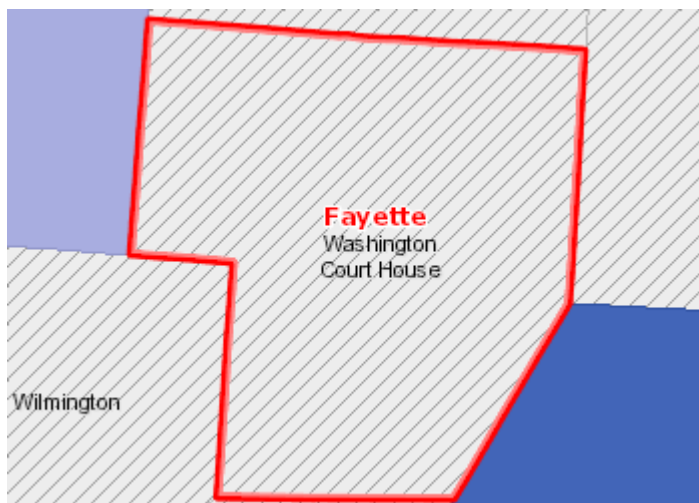

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of females with cervical cancer adjusted to 2000 U.S. standard population age groups (Under age 1, 1-4, 5-9, ..., 80-84, 85 and older). This indicator is relevant because cancer is a leading cause of death and it is important to identify cancers separately to better target interventions.

Mortality - Cancer

This indicator reports the rate of death due to malignant neoplasm (cancer) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because cancer is a leading cause of death in the United States.

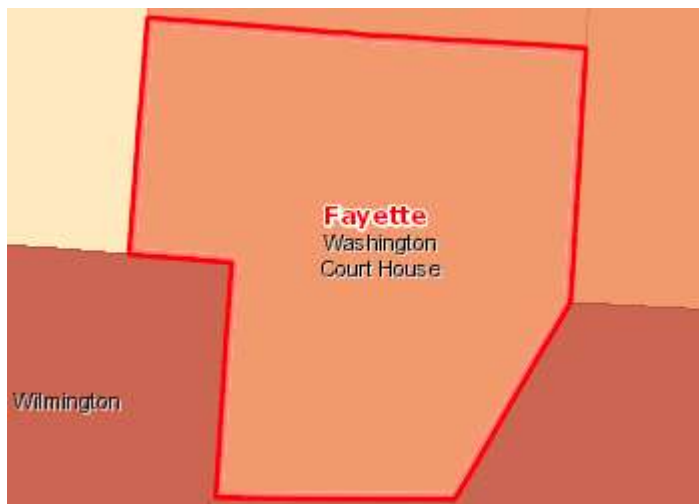

Report Area	Total Population	Average Annual Deaths, 2010-2014	Crude Death Rate (Per 100,000 Pop.)	Age-Adjusted Death Rate (Per 100,000 Pop.)

Mortality - Coronary Heart Disease

Within the report area the rate of death due to coronary heart disease (ICD10 Codes I20-I25) per 100,000 population is 129.4. This rate is greater than than the Healthy People 2020 target of less than or equal to 103.4. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because heart disease is a leading cause of death in the United States.

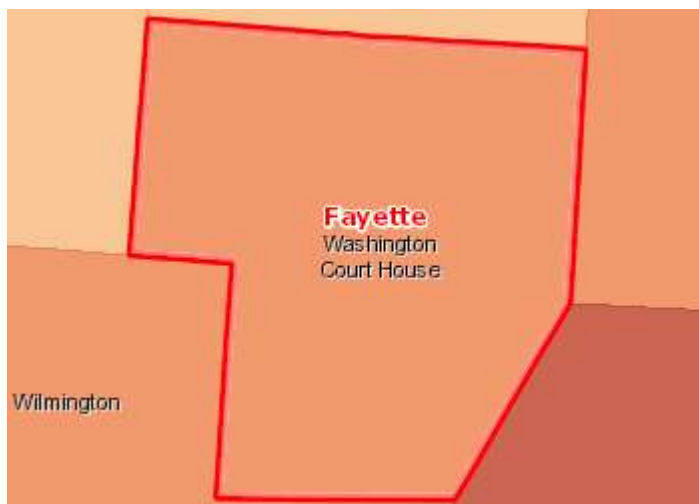

Report Area	Total Population	Average Annual Deaths, 2010-2014	Crude Death Rate (Per 100,000 Pop.)	Age-Adjusted Death Rate (Per 100,000 Pop.)
Fayette County, OH	28,899	45	157.1	129.4

Pedestrian Motor Vehicle Crash Mortality, Rate (Per 100,000 Pop.) by County, NHTSA 2011-2015

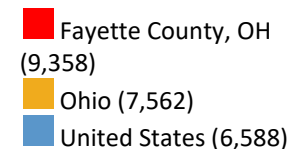

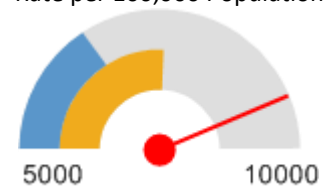

Mortality - Premature Death

This indicator reports Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death, age-adjusted to the 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. This indicator is relevant because a measure of premature death can provide a unique and comprehensive look at overall health status.

Report Area	Total Population, Census 2010	Total Premature Deaths, 2011-2013 Average	Total Years of Potential Life Lost, 2011-2013 Average	Years of Potential Life Lost, Rate per 100,000 Population

Poor Dental Health

This indicator reports the percentage of adults age 18 and older who self-report that six or more of their permanent teeth have been removed due to tooth decay, gum disease, or infection. This indicator is relevant because it indicates

lack of access to dental care and/or social barriers to utilization of dental services.

Report Area	Total Population (Age 18)	Total Adults with Poor Dental Health	Percent Adults with Poor Dental Health
Fayette County, OH	21,682	9,997	46.1%
